Azeiteiro, Fátima Alves, 2016-03-24 A major objective of this volume is to create and share knowledge about the socio economic political and cultural dimensions of climate change The authors analyze the effects of climate change on the social and environmental determinants of the health and well being of communities i e poverty clean air safe drinking water food supplies and on extreme events such as floods and hurricanes The book covers topics such as the social and political dimensions of the ebola response inequalities in urban migrant communities as well as water related health effects of climate change The contributors recommend political and social cultural strategies for mitigate adapt and prevent the impacts of climate change to human and environmental health The book will be of interest to scholars and practitioners interested in new methods and tools to reduce risks and to increase health resilience to climate change

**The Politics of the Climate Change-Health Nexus** Maximilian Jungmann, 2021-05-09 This book compares how governments in 192 countries perceive climate change related health risks and which measures they undertake to protect their populations Building on case studies from the United Kingdom Ireland South Korea Japan and Sri Lanka The Politics of the Climate Change Health Nexus demonstrates the strong influence of epistemic communities and international organisations on decision making in the field of climate change and health Jungmann shows that due to the complexity and uncertainty of climate change related health risks governments depend on the expertise of universities think tanks international organisations and researchers within the public sector to understand strategize and implement effective health adaptation measures Due to their general openness towards new ideas and academic freedom the book shows that more democratic states tend to demonstrate a higher recognition of the need to protect their populations However the level of success largely depends on the strength of their epistemic communities and the involvement of international organisations This volume will be of great interest to students and scholars of climate change and public health It will also be a valuable resource for policymakers from around the world to learn from best practices and thus improve the health adaptation work in their own countries

**Handbook of Climate Change Communication: Vol. 2** Walter Leal Filho, Evangelos Manolas, Anabela Marisa Azul, Ulisses M. Azeiteiro, Henry McGhie, 2017-11-19 This comprehensive handbook provides a unique overview of the theory methodologies and best practices in climate change communication from around the world It fosters the exchange of information ideas and experience gained in the execution of successful projects and initiatives and discusses novel methodological approaches aimed at promoting a better understanding of climate change adaptation Addressing a gap in the literature on climate change communication and pursuing an integrated approach the handbook documents and disseminates the wealth of experience currently available in this field Volume 2 of the handbook provides a unique description of the theoretical basis and of some of the key facts and phenomena which help in achieving a better understanding of the basis of climate change

communication providing an essential basis for successful initiatives in this complex field Climate Change, Hazards and Adaptation Options Walter Leal Filho, Gustavo J. Nagy, Marco Borga, Pastor David Chávez Muñoz, Artur Magnuszewski, 2020-02-14 This book addresses the issue of climate change risks and hazards holistically Climate change adaptation aims at managing climate risks and hazards to an acceptable level taking advantage of any positive opportunities that may arise At the same time developing suitable responses to hazards for communities and users of climate services is important in ensuring the success of adaptation measures But despite this knowledge about adaptation options including possible actions that can be implemented to improve adaptation and reduce the impacts of climate change hazards is still limited Addressing this need the book presents studies and research findings and offers a catalogue of potential adaptation options that can be explored It also includes case studies providing illustrative and inspiring examples of how we can adapt to a changing climate **Handbook of Climate Change Communication: Vol. 3** Walter Leal Filho, Evangelos

Manolas, Anabela Marisa Azul, Ulisses M. Azeiteiro, Henry McGhie, 2018-01-09 This comprehensive handbook provides a unique overview of the theory methodologies and best practices in climate change communication from around the world It fosters the exchange of information ideas and experience gained in the execution of successful projects and initiatives and discusses novel methodological approaches aimed at promoting a better understanding of climate change adaptation Addressing a gap in the literature on climate change communication and pursuing an integrated approach the handbook documents and disseminates the wealth of experience currently available in this field Volume 3 of the handbook provides case studies from around the world documenting and disseminating the wealth of experiences available *Handbook of Climate Change Communication: Vol. 1* Walter Leal Filho, Evangelos Manolas, Anabela Marisa Azul, Ulisses M. Azeiteiro, Henry McGhie, 2017-12-29 This comprehensive handbook provides a unique overview of the theory methodologies and best practices in climate change communication from around the world It fosters the exchange of information ideas and experience gained in the execution of successful projects and initiatives and discusses novel methodological approaches aimed at promoting a better understanding of climate change adaptation Addressing a gap in the literature on climate change communication and pursuing an integrated approach the handbook documents and disseminates the wealth of experience currently available in this field Volume 1 of the handbook provides a unique description of the theoretical basis and of some of the key facts and phenomena which help in achieving a better understanding of the basis of climate change communication providing an essential basis for successful initiatives in this complex field Building Bottom-up Health and Disaster Risk Reduction Programmes Emily Ying Yang Chan, 2017-12-08 As a backdrop of the Sustainable Development Goals SDGs 2016 2030 the United Nations pointed out that more than 6 million children still died before the age of five by 2015 At least 1.8 billion people across the world still consumed fecally contaminated drinking water and 2.4 million lacked access to basic sanitation services such as toilets or latrines while nearly 1 000 children died every day of preventable water and

sanitation related diarrhoeal diseases Rural areas fare far worse Children in rural areas are about 1.7 times more likely to die before their fifth birthday as those in urban areas About 16 per cent of the rural population do not use improved drinking water sources compared to 4 per cent of the urban population About 50 per cent of people living in rural areas lack improved sanitation facilities compared to only 18 per cent of people in urban areas Far too many one off rural on site public health knowledge transfer projects fail to deliver results in the long run and the knowledge in question cannot be retained in the rural communities after the NGO and development workers are gone In addition to external constraints this is often due to a lack of theoretical understanding among NGO practitioners and volunteers and basis for evaluation and improvement of health relief programmes Based on public health theories and illustrated by relevant examples this book introduces how health emergency and disaster preparedness education programmes could be organised in remote rural Asia which could become useful reference materials for organisers and volunteers of rural development projects This book is an introductory to intermediate level textbook and reference book for healthcare professionals fieldworkers volunteers and students who are interested in promoting health and emergency and disaster risk reduction The book is developed from the experience and insights gained from the long established CCOUC Ethnic Minority Health Project in China It also incorporates new lessons from CCOUC's recent projects in Asia countries like Bhutan Nepal and Democratic People's Republic of Korea
