Climate Smart Energy Wise Advancing Science Literacy Knowledge And Know How:

Climate Smart & Energy Wise Mark S. McCaffrey, 2014-09-09 *Climate Smart Energy Wise* provides a roadmap to teachers to assist them in acquiring the background and resources to bring climate and energy education into their classrooms. It provides a wealth of information to help teachers find resources including the very useful Climate Literacy and Energy Literacy frameworks developed by scientists and master teachers. This book is packed with suggestions for where a teacher can find more information and classroom guidance for the teaching of global climate change. From the Foreword by Eugenie C. Scott Ph.D. former Executive Director of the National Center for Science Education Inc. and Jay B. Labov Ph.D. Senior Advisor for Education and Communication for the National Academy of Sciences and the National Research Council. Today's answers to our most urgent climate issues. The twenty-first century ushered in a set of unmistakably urgent global challenges that are too important to be an afterthought in today's classrooms. Just in time here's a resource to improve your students' understanding of the intersection of science and social policy by making climate and energy literacy the centerpiece of your curriculum. What recommends Climate Smart Energy Change in particular? That there's no more informed expert on the subject than Mark McCaffrey. His book offers a virtual blueprint to climate and energy education packed with resources and strategies including: A high-level overview of where climate and energy topics fit or don't fit in to your current curriculum. A discussion of the new Next Generation Science Standards (NGSS) and how you can meet them with well-planned pedagogical strategies. Proven methods to teach climate change and related topics in a grade-appropriate way. Sample learning activities and high-quality online resources from the Climate Literacy and Energy Awareness Network (CLEAN). Students, educators, and parents must pool their diverse skills and abilities to ensure our schools produce graduates that are able to respond to the global imperative facing us all. Climate Smart Energy Wise is the key to making a better future our reality.

Emerging Smart Technologies Dr. Matthew N. O. Sadiku, 2021-03-04 We live in a world with an abundance of technologies and the technologies are developing and improving rapidly. Technologies are transforming our lifestyles, social interactions, and workplaces. Nearly everyone in the developed nations possesses multiple electronic gadgets: cell phones, tablets, personal computers, laptops, digital notebooks, etc. Daily use of technology has evolved. Recent advances in the field of technology have led to the emergence of innovative solutions known as smart technologies. A technology is considered smart if it performs a task that an intelligent person can do.

A smart or intelligent technology is a self operative and corrective system that requires little or no human intervention Smart technologies can be understood as a generalization of the concept of smart structures and the use of digital and communications technologies They have given us new powerful tools to work Application of such technologies can transform the conventional cities into smart cities conventional home into smart home conventional farming into smart farming etc Today we are in an era where everything is expected to be smart Common examples include smart cities smart factory smart agriculture smart farming smart healthcare smart university smart medication smart water smart food smart materials smart devices smart phones smart grid smart energy smart homes smart buildings smart metering smart appliances smart equipment smart heating controls smart lighting systems smart watch smart economy smart environment smart grids smart transportation smart mobility smart manufacturing smart living smart environment smart people etc These technologies will ensure equity fairness and realize a better quality of life The combined autonomy and ambience of smart technologies simultaneously provides the conduit through which our choices are affected These smart technologies go hand in hand with a new technology called the Internet of things IoT
