

CLIMBING PARNASSUS

A NEW APOLOGIA FOR GREEK AND LATIN

"Comprehensive and eloquent."

—JACQUES BARZUN

NEW YORK: F. V. CO., 1904.

TRACY LEE SIMMONS

FOREWORD BY WILLIAM F. BUCKLEY JR.

Climbing Parnassus A New Apologia For Greek And Latin

Anthony O'Hear, Marc Sidwell

Climbing Parnassus A New Apologia For Greek And Latin:

Climbing Parnassus Tracy Lee Simmons, 2023-03-14 In *Climbing Parnassus* winner of the 2005 Paideia Prize Tracy Lee Simmons presents a defense and vindication of the formative power of Greek and Latin He also shows how these languages have played a crucial role in the development of authentic Humanism the foundation of the West's cultural order and America's understanding of itself as a union of citizens Simmons's persuasive witness to the unique now all but forgotten advantages of study in and of the classical languages constitutes a bracing reminder of the genuine aims of a truly liberal education

Words Made Flesh R. Jared Staudt, 2024-06 Forming souls and building culture together form the sacramental mission of Catholic education These profoundly related goals are laid out by the Church for education following the general sacramental principle that permeates the whole of Catholic life This approach seeks conformity to the Logos the divine mind that shapes the way disciples think imagine and pray Guided by this approach the student will be able to contemplate the truth of reality in a holistic and integrated fashion As sacramental it also leads to a concrete embodiment in the life of the Christian community and the daily actions of the disciple A sacramental approach to education draws together the inner and outer life mind and body soul and culture prayer and work salvation and mission the individual and community For the future of society and renewal within the Church we need nothing less than a reintegration of the person and our communities through the renewal of education forming students deeply rooted in our heritage and prepared to hand it on in creative ways

Just Words Alan Ackerman, Associate Professor of English University of Toronto Alan Ackerman, 2011-06-28 In an appearance on *The Dick Cavett Show* in 1980 the critic Mary McCarthy glibly remarked that every word author Lillian Hellman wrote was a lie including and and the Hellman immediately filed a libel suit charging that McCarthy's comment was not a legitimate conversation on public issues but an attack on her reputation This intriguing book offers a many faceted examination of Hellman's infamous suit and explores what it tells us about tensions between privacy and self expression freedom and restraint in public language and what can and cannot be said in public in America

Teaching World Languages in Middle and Secondary Schools Timothy Reagan, Terry A. Osborn, 2025-11-04 *Teaching World Languages in Middle and Secondary Schools A Critical Introduction* is an introductory textbook for teacher education candidates at either the undergraduate or graduate levels who are seeking certification to teach a world foreign language

The School of Freedom Anthony O'Hear, Marc Sidwell, 2013-11-26 Liberal education is not a theory It is the tradition by which Western civilisation has preserved and enriched its inheritance for two and a half thousand years Yet liberal education is a term that has fallen from use in Britain its traditional meaning now freely confused with its opposite This book is intended to correct that misapprehension through the presentation of original source material from the high points in the liberal education tradition with particular focus on the British experience Section 1 Origins c 450 BC to c 450 AD Section 2 The British Tradition c 750 to 1950 Section 3 After Tradition 1950 onward Section 4 Liberal Education Redux

America **Language Matters** Timothy Reagan, 2009-04-01 This book addresses a timely and very important topic language in education Language apparently is a very tricky business On the one hand everyone uses language and virtually everyone has strong views about language In the educational domain this seems to be especially true Language is not merely an intrinsic component of the educational process as the medium of instruction in the classroom but also serves as the mediator of social reality for students and teachers alike It plays a central role in articulating and conveying not only social cultural and empirical ideas but ideological concepts as well It is also used to make judgments about the speaker not to mention its role in maintaining differential power relations And yet in spite of this the role of language is not sufficiently recognized in classroom practice much of the time Nor is language except in fairly narrow ways really an especially central part of the curriculum in spite of its incredible importance To be sure we do spend a great deal of time and money attempting to teach students to read and write that is to provide them with basic literacy skills and we provide nominal support for foreign language education programs We also provide limited support for children coming to school who do not speak English What we do not do though is to recognize the absolute centrality of language knowledge and language use for the educated person This book seeks to address these issues from the broad perspective of critical pedagogy Christianity, Education and Modern Society William Jaynes, Enedina Martinez, 2007-10-01 The issues that these authors address in this book are some of the most salient in American society It is imperative that Americans today address these issues and establish an appropriate world view There is little question that how people resolve these issues will have a long lasting impact on the future of civilization **Cicero in Heaven** Carl P.E. Springer, 2017-10-02 In Cicero in Heaven The Roman Rhetor and Luther's Reformation Carl Springer traces the historical outlines of Cicero's rhetorical legacy paying special attention to the momentous impact that he had on Luther his colleagues at the University of Wittenberg and later Lutherans While the revival of interest in Cicero's rhetoric is more often associated with the Renaissance than with the Reformation it would be a mistake to overlook the important role that Luther and other reformers played in securing Cicero's place in the curricula of schools in modern Europe and America Luther's attitude towards Cicero was complex and the final chapter of the book discusses negative reactions to Cicero in the Reformation and the centuries that followed **School with a Big Why** Peter T. Denton, 2024-12-09 These reflections on school and schooling come from the crucible of practice in the real world of K 12 education Written by a school leader for his school these essays have a timeless and universal appeal for parents grandparents educators school leaders and all who care about the formation of the next generation Chip Denton founding head of Trinity School in Durham North Carolina applies multiple lenses theological pedagogical and practical to reflect on the ways a school's mission drives a multitude of mindsets traditions and habits in a community of learners Schools are places where words matter and in this volume you can see a school leader working to match word and deed in the life of a school Collected from Denton's regular Head Lines letters to the Trinity School community over the last decade 2015 2024

these reflections engage the complexities and tensions of excellence in education The letters can be read individually but together they tell how one school s story illustrates Nietzsche s saying that one who has a why can manage with any how

Unveiling the Magic of Words: A Report on "**Climbing Parnassus A New Apologia For Greek And Latin**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance.
