training all of these play a role in this writing The reader will see and experience the maneuvering of words each used to explain and help promote understanding in how people s judgments are formed Many judgments are those that I like to call terminal thoughts For some reason or another certain thoughts are seemingly non negotiable to the holder of them With terminal thoughts in mind we all have them I m able to using my writing go with the reader using their various lines of thinking as if their beliefs are absolutely true Then near each chapter ending I include an alternative and new perspective where a question about the once absolute belief is now wedged toward and in between a different belief Wedged meaning a small detail of alternative thought is strategically placed juxtaposition to a terminal thought that the reader once used or uses still maybe to hold up a rationale supporting truth By each chapters end the belief is jolted loose a tiny bit hopefully It is in that jolting where a belief becomes finally questioned and questionable This text contains my best writing and some of my best clinical recall All of my training is included in some way in every part of this text the hypnosis training kicks my writing up a notch Here using people s RIGHTNESS as an ally in shaping a new belief I contradict the old truth while valuing it in key and passionate areas of what might be called life and the people that make it so That s what I d say this book hopes to do to jolt loose just a little bit those absolute judgments we as humans may unknowingly without ill intent and possibly

orchestration This book analyses 48 in depth and mediated interviews forums blogs and official statements made by dating apps It situates this transition within the broader culture of data colonialism through close readings of science fiction suggesting the world has become like Us where doppelgangers constituted from reprehensible proclivities have emerged as digital profiles reflected back to users through the horrific play of social media mirrors to govern their encounters against their wishes These mirrors allow media companies to conduct surreptitious experiments on users dispossessed desires devise digital doppelgangers from those they disavow and compel behaviors that are lucrative precisely because they are misaligned with humane values Yet this horrific play of mirrors is not inevitable By attending to the ghosts of colonialism unleashed by

media companies through the approach developed in this book it is still possible to galvanize the collective will to combat data colonialism and strive to create a world where love disentangled from colonial modes of desire is possible This study will interest scholars attempting to understand the rapidly evolving ecology of dating apps within the areas of digital media media sociology cultural studies anthropology and media and communication studies **The 1969 Economic Report of the President** United States.
