Canada And The United States Ambivalent Allies 4th Ed:

The Politics of Canadian Foreign Policy, Fourth Edition Kim Richard Nossal, Stéphane Roussel, Stéphane Paquin, 2015-12-07 The fourth edition of this widely used text includes updates about the many changes that have occurred in Canadian foreign policy under Stephen Harper and the Conservatives between 2006 and 2015 Subjects discussed include the fading emphasis on internationalism the rise of a new foreign policy agenda that is increasingly shaped by domestic political imperatives and the changing organization of Canada's foreign policy bureaucracy As in previous editions this volume analyzes the deeply political context of how foreign policy is made in Canada Taking a broad historical perspective Kim Nossal Stéphane Roussel and Stéphane Paquin provide readers with the key foundations for the study of Canadian foreign policy They argue that foreign policy is forged in the nexus of politics at three levels the global the domestic and the governmental and that to understand how and why Canadian foreign policy looks the way it does one must look at the interplay of all three Power, Politics, and Principles Taylor Hollander, 2018-06-12 Set against the backdrop of the U S experience *Power Politics and Principles* uses a transnational perspective to understand the passage and long term implications of a pivotal labour law in Canada Utilizing a wide array of primary materials and secondary sources Hollander gets to the root of the policy making process revealing how the making of P C 1003 in 1944 a wartime order that forced employers to the collective bargaining table involved real people with conflicting personalities and competing agendas Each chapter of *Power Politics and Principles* begins with a quasi fictional vignette to help the reader visualize historical context Hollander pays particular attention to the central role that Mackenzie King played in the creation of P C 1003 Although most scholars describe the Prime Minister's approach to policy decisions as calculating and opportunistic *Power Politics and Principles* argues that Mackenzie King's adherence to moderate principles resulted in a less hostile legal environment in Canada for workers and their unions in the long run than a more far reaching collective bargaining law in the United States

Canadian Studies in the New Millennium Mark J. Kasoff, Patrick James, 2013-01-01 This popular textbook offers a thorough and accessible approach to Canadian Studies through comparative analyses of Canada and the United States their histories geographies political systems economies and cultures Students and professors alike acknowledge it as an ideal tool for understanding the close relationship between the two countries their shared experiences and their differing views on a range of issues Fully revised and updated the second edition of *Canadian Studies in the New Millennium* includes new chapters on Demography and Immigration Policy the Environment and Civil Society and Social Policy all written by leading scholars and educators in the field At a time in which there is a growing mutual dependence between the US and Canada for security trade and investment *Canadian Studies in the New Millennium* will continue to be a valuable resource for students educators and practitioners on both sides of the border **Animal Rights and Welfare** Lawrence W. Baker, 2015-04-21 Through the use of primary source documents readers can learn about key opinions and legislation in the important field of

animal rights and welfare a current and highly relevant topic Animal Rights and Welfare A Documentary and Reference Guide addresses a broad range of key topics within the subject of animal rights and welfare including zoos animal testing philosophy regarding the treatment of animals and practical measures instituted to protect animals supplying readers with an impartial and authoritative resource for understanding the history of animal rights and the issues that dominate discussions about animal rights Organized chronologically the book discusses topics such as animal rights within the context of hunting for food pelts and other body parts as well as for recreation working animals animals used for education or scientific and medical research animals in the fashion and entertainment industries and the food industry The text provides reproductions of dozens of carefully selected primary documents from the time of Aristotle B C to present day to engage readers and provide opportunities for them to apply their critical thinking and analysis skills The text of each document is introduced by a headnote to place it in context and concludes with analysis that details its significance and clarifies specific passages when needed Each document or excerpt is followed by a full citation of the document

A Concise History of Canada Margaret Conrad, 2022-08-11 Margaret Conrad's history of Canada explains what makes up this diverse complex and often contested nation state Beginning in Canada's deep past with the arrival of its Indigenous peoples she traces its history through the conquest by Europeans the American Revolutionary War and Confederation in the nineteenth century to its prosperous present This impressive second edition has expanded by 20 percent including revised chapters and an insightful analysis of the fraught relationship between Justin Trudeau and Donald Trump As a social historian Conrad emphasizes the relationships between Indigenous peoples and settlers French and English Catholic and Protestant men and women rich and poor It is this grounded approach that drives the narrative and makes for compelling reading Despite its successes and its popularity as a destination for immigrants from across the world Canada remains a cautious and contested country This thorough yet concise new edition explains why

America and the Americas Lester D. Langley, 2010-04-15 In this completely revised and updated edition of *America and the Americas* Lester D. Langley covers the long period from the colonial era into the twenty first century providing an interpretive introduction to the history of U S relations with Latin America the Caribbean and Canada Langley draws on the other books in the series to provide a more richly detailed and informed account of the role and place of the United States in the hemisphere In the process he explains how the United States in appropriating the values and symbolism identified with America has attained a special place in the minds and estimation of other hemispheric peoples Discussing the formal structures and diplomatic postures underlying U S policy making Langley examines the political economic and cultural currents that often have frustrated inter American progress and accord Most important the greater attention given to U S relations with Canada in this edition provides a broader and deeper understanding of the often controversial role of the nation in the hemisphere and particularly in North America Commencing with the French British struggle for supremacy in North America in the French and Indian War Langley frames the story of

the American experience in the Western Hemisphere through four distinct eras In the first era from the 1760s to the 1860s the fundamental character of U S policy in the hemisphere and American values about other nations and peoples of the Americas took form In the second era from the 1870s to the 1930s the United States fashioned a continental and then a Caribbean empire From the mid 1930s to the early 1960s the paramount issues of the inter American experience related to the global crisis In the final part of the book Langley details the efforts of the United States to carry out its political and economic agenda in the hemisphere from the early 1960s to the onset of the twenty first century only to be frustrated by governments determined to follow an independent course Over more than 250 years of encounter however the peoples of the Americas have created human bonds and cultural exchanges that stand in sharp contrast to the formal and often conflictive hemisphere crafted by governments

Debating Dissent Gregory S. Kealey, Lara Campbell, Dominique Clément, 2012-01-01 Although the 1960s are overwhelmingly associated with student radicalism and the New Left most Canadians witnessed the decade s political economic and cultural turmoil from a different perspective Debating Dissent dispels the myths and stereotypes associated with the 1960s by examining what this era s transformations meant to diverse groups of Canadians and not only protestors youth or the white middle class With critical contributions from new and senior scholars Debating Dissent integrates traditional conceptions of the 1960s as a time apart within the broader framework of the long sixties and post 1945 Canada and places Canada within a local national an international context Cutting edge essays in social intellectual and political history reflect a range of historical interpretation and explore such diverse topics as narcotics the environment education workers Aboriginal and Black activism nationalism Quebec women and bilingualism Touching on the decade s biggest issues from changing cultural norms to the role of the state Debating Dissent critically examines ideas of generational change and the sixties

Negotiating a River Daniel MacFarlane, 2014-03-01 A megaproject half a century in the making the planning and building of the St Lawrence Seaway and Power Project is one of the defining episodes in North American history Possibly the largest construction undertaking in Canadian history and one of the most ambitious borderlands projects ever embarked upon by two countries it also required decades of negotiation and the controversial relocation of thousands of people Negotiating a River looks at the profound impacts of this megaproject from the complex diplomatic negotiations political manoeuvring and environmental diplomacy to the implications on national identities and transnational relations

Uprooting Community Selfa A. Chew, 2015-10-22 Joining the U S war effort in 1942 Mexican President Manuel vila Camacho ordered the dislocation of Japanese Mexican communities and approved the creation of internment camps and zones of confinement Under this relocation program a new pro American nationalism developed in Mexico that scripted Japanese Mexicans as an internal racial enemy In spite of the broad resistance presented by the communities wherein they were valued members Japanese Mexicans lost their freedom property and lives In Uprooting Community Selfa A Chew examines the lived experience of Japanese Mexicans in the U S Mexico borderlands during World

War II Studying the collaboration of Latin American nation states with the U S government Chew illuminates the efforts to detain deport and confine Japanese residents and Japanese descent citizens of Latin American countries during World War II These narratives challenge the notion that Japanese Mexicans enjoyed the protection of the Mexican government during the war and refute the mistaken idea that Japanese immigrants and their descendants were not subjected to internment in Mexico during this period Through her research Chew provides evidence that despite the principles of racial democracy espoused by the Mexican elite Japanese Mexicans were in fact victims of racial prejudice bolstered by the political alliances between the United States and Mexico The treatment of the ethnic Japanese in Mexico was even harsher than what Japanese immigrants and their children in the United States endured during the war according to Chew She argues that the number of persons affected during World War II extended beyond the first generation Japanese immigrants handled by the Mexican government during this period noting instead that the entire multiethnic social fabric of the borderlands was reconfigured by the absence of Japanese Mexicans

Imperialism and Expansionism in American History Chris J. Magoc, David Bernstein, 2015-12-14 This four volume encyclopedia chronicles the historical roots of the United States current military dominance documenting its growth from continental expansionism to hemispheric hegemony to global empire This groundbreaking four volume encyclopedia offers sweeping coverage of a subject central to American history and of urgent importance today as the nation wrestles with a global imperial posture and the long term viability of the largest military establishment in human history The work features more than 650 entries encompassing the full scope of American expansionism and imperialism from the colonial era through the 21st century War on Terror Readers will learn about U S Native American conflicts 19th century land laws early forays overseas for example the opening of Japan and America s imperial conflicts in Cuba and the Philippines U S interests in Latin America are explored as are the often forgotten ambitions that lay behind the nation s involvement in the World Wars The work also offers extensive coverage of the Cold War and today s ongoing conflicts in Iraq Afghanistan Africa and the Middle East as they relate to U S national interests Notable individuals including American statesmen military commanders influential public figures and anti imperialists are covered as well The inclusion of cultural elements of American expansionism and imperialism for example Hollywood films and protest music helps distinguish this set from other more limited works

Reviewing **Canada And The United States Ambivalent Allies 4th Ed**: Unlocking the Spellbinding Force of Linguistics
