Taylor,1999 The Book Buyer's Guide ,1962 **The Marathon of the Messenger** Jérôme Lemonnier,Nicolas Lemonnier,2023-11-01 The Covid 19 pandemic changed the world Indeed a real race took place worldwide between SARS CoV 2 on the one hand and researchers on the other especially those specializing in messenger RNA vaccines Four years after its emergence the pandemic is not over but some decisive battles have been won thanks to the

great success of mRNA vaccines The Marathon of The Messenger presents the history of these mRNA vaccines combining a scientific background with historical and economic perspectives It appears that an important page in the history of these new vaccines was written in Europe thanks to the crucial work of German and French scientists this effort began in 1993 and continues to this day In the face of a prevailing single mindedness these researchers pushed through a new therapeutic concept and defined the biotechnological keys that would open the way to the production of therapeutic messenger RNA in the fight against cancer and viral infections Written for a broad audience and accompanied by humorous cartoons this book will appeal to anyone looking for scientific and historical answers about mRNA vaccines Readers will discover not only the technical and scientific knowledge of how these vaccines work but also the economic levers that were necessary to create this technology This book has been written in collaboration with Dr Steve Pascolo former director of CureVac and the RNA messenger expert Professor Chantal Pichon It also features a preface by Dr Pierre Meulien former director of the European Union public private partnership Innovative Medicines Initiative IMI
