Cia Manual For Psychological Operations In Guerrilla Warfare:

Psychological Operations in Guerilla Warfare John Kirkpatrick,2020-05 During Nicaragua s civil war in the 1980s the Central Intelligence Agency CIA commissioned a manual for the rebel contras of the Nicaraguan Democratic Force FDN entitled Psychological Operations in Guerrilla Warfare Operaciones psicológicas en guerra de guerrillas Its public revelation in October 1984 created a firestorm of controversy The manual was written by a CIA contract employee who used the alias John Kirkpatrick He based his work off of existing US Army manuals particularly the Green Berets Lesson Plan 643 Armed Psyop April 1968 Field Manual 30 104 Handbook on Aggressor Insurgent War September 1967 was another source These manuals were in turn informed by the Army s study of the doctrine and methods employed by the Viet Cong s Armed Propaganda Teams to build political support Kirkpatrick worked during the fall of 1983 with the FDN director in charge of communications Edgar Chamorro and Chamorro s secretary translated the manuscript into Spanish The ninety page manual was printed under the pseudonym Tayac n in late 1983 Two passages were cut out of the printed manual and replaced by expurgated pages before distribution one talked about getting demonstrators killed to create martyrs for the cause the other about hiring professional criminals for special jobs The full unexpurgated manual was retranslated into English by Joanne Omang for the Congressional Research Service [CIA](#) A. M. Nagy,2011-08-01 Guerrilla warfare is essentially a political war Therefore its area of operations exceeds the territorial limits of conventional warfare to penetrate the political entity itself the political animal that Aristotle defined In effect the human being should be considered the priority objective in a political war And conceived as the military target of guerrilla war the human being has his most critical point in his mind Once his mind has been reached the political animal has been defeated without necessarily receiving bullets Guerrilla warfare is born and grows in the political environment in the constant combat to dominate that area of political mentality that is inherent to all human beings and which collectively constitutes the environment in which guerrilla warfare moves and which is where precisely its victory or failure is defined This conception of guerrilla warfare as political war turns Psychological Operations into the decisive factor of the results The target then is the minds of the population all the population our troops the enemy troops and the civilian population This book is a manual for the training of guerrillas in psychological operations and its application to the concrete case of the Christian and democratic crusade being waged in Nicaragua by the Freedom Commandos Note In this text the editor has replaced the phrase Sandinista with Government as this manual should be a guide to fight and conquer any oppressive government [CIA](#) A. Psychological Operations in Guerrilla Warfare Tayacán,Committee on Science, Engineering, and Public Policy (U.S.),Joanne Omang,Aryeh Neier,1985 *Psychological Warfare and India* Dr Arunkumar Bhatt,2015-03-16 Wars are born in human mind Great military leaders belonging to all times and cultures have always tried to influence the minds of their

foes and friends alike to facilitate their own victories by making their enemies hesitant. The minds concerned could be influenced with a variety of overt and covert actions that send right signals to the target audiences. In the words of Allied Supreme Commander of the World War II Gen Dwight Eisenhower, these actions are anything from the singing of a beautiful anthem to the most extraordinary kind of physical sabotage. This is Psychological Warfare, and the most preferred action is communication. Dr Arunkumar Bhatt, who being a defence journalist, knows nuances of communication and unfolds here this soft kill strategy and its tactics. He traces the history of the psychological warfare to establish how steadily its importance has grown. It became a war-winning factor in the Great War, and its role further expanded in the World War II. The Psywar, as it has come to be known among many names, has not looked back since then. The advances in science and technology revolution in communication and information technologies have greatly enhanced the range and effectiveness of the psychological warfare in terms of both time and space. The Revolution in Military Affairs has been further sharpening the Psywar weapons. Dedicated Psywar units and even commands backed by elements in formation staff are in the vogue. The Psychological Warfare has now found a place among war by other means. It is recognised as a command function and is factored in planning at all levels. It is so important that the decision to deploy the psy weapons is taken at the top echelon of the high command, and this is done much ahead of the breaking out of hostilities. Where does India stand that has a poor strategic culture and still poorer awareness about its security stand vis vis Psywar? Indian culture has instances of the Psywar. It was being practised in the ancient period. Kautilya recommends it strongly. Different invaders used it. The British practised it in an institutionalised fashion to rule India. India did counter the British psywar but in a rather irregular way. India used it successfully in some of the post independence wars, but the country needs to do much more to protect itself against Psywar attacks and to use it effectively to enhance its own security in the present day multi threat scenario. This is an attempt to table a calling attention motion before the nation.
