Lecturer in Arabic and Islamic Studies Norman Calder, Norman Calder, Jawid Ahmad Mojaddedi, Jawid Mojaddedi, Andrew Rippin, Associate Professor of Religious Studies Andrew Rippin, 2004-03 This sourcebook presents more than fifty new translations of key Islamic texts Edited and translated by three leading specialists it illustrates the growth of Islamic thought from its seventh century origins to the end of the medieval period **Religion, Law and Learning in Classical Islam** George Makdisi, 2022-02-23 This second selection of articles by George Makdisi concentrates on the schools of religious thought and legal learning in the medieval Islamic world and their defence of orthodoxy The author aims to review and reassess the implications of the conflict between first the rationalist and the traditional theologians the one accepting the influence of Greek philosophy the other rejecting it and then between one of these traditionalist schools the Hanbali school of law and Sufi mysticism One of the most important consequences of the first of these confrontations he contends was the emergence of the schools of law as the guardians of the faith and theological orthodoxy The final section of the book also looks at the structure of legal learning at the institutions themselves their organization and the principles upon which they operated As well as entering the debate over the existence of corporations and guilds of law in classical Islam maintaining that they did exist these articles further suggest links between such institutions and the evolution of universities in the medieval West and the Inns of Court in England and discuss the Islamic and Arabic contribution to the concepts of academic and intellectual freedom and to the development of scholasticism and humanism Cette deuxième sélection d'articles de George Makdisi se concentre sur les écoles de pensée religieuse et d'apprentissage juridique dans le monde islamique médiéval et leur défense de l'orthodoxie L'auteur entend passer en revue et évaluer les implications du conflit entre d'abord les théologiens rationalistes et traditionnels l'un acceptant l'influence de la philosophie grecque l'autre la rejetant puis entre l'un d'eux écoles traditionalistes l'école de droit Hanbali et le mysticisme soufi L'une des conséquences les plus importantes de la première de ces confrontations soutient-il a été l'émergence des écoles de droit en tant que gardiennes de la foi et de l'orthodoxie théologique La dernière section du livre examine également la structure de l'apprentissage juridique les institutions elles-mêmes leur organisation et les principes sur lesquels elles fonctionnent En plus d'entrer dans le débat sur l'existence des

corporations et des guildes de la loi dans l'islam classique maintenant qu'elles existaient ces articles suggèrent en outre des liens entre de telles institutions et l'évolution des universités dans l'Occident médiéval et les Inns of Court en Angleterre et discuter de la contribution islamique et arabe aux concepts de liberté académique et intellectuelle et au développement de la scolastique et de l'humanisme

Peters skillfully combines extensive passages from Islamic texts with a fascinating commentary of his own In so doing he presents a substantial body of literary evidence that will enable the reader to grasp the bases of Muslim faith and more to get some sense of the breadth and depth of Islamic religious culture as a whole The voices recorded here are those of Muslims engaged in discourse with their God and with each other historians lawyers mystics and theologians from the earliest Companions of the Prophet Muhammad down to Ibn Rushd or Averroes d. 1198 al Nawawi d. 1278 and Ibn Khaldun d. 1406 These religious seekers lived in what has been called the classical period in the development of Islam the era when the exemplary works of law and spirituality were written texts of such universally acknowledged importance that subsequent generations of Muslims gratefully understood themselves as heirs to an enormously broad and rich legacy of meditation on God's Word Islam is a word that seems simple to understand It means submission and more specifically in the context where it first and most familiarly appears submission to the will of God That context is the Quran the Sacred Book of the Muslims from which flow the patterns of belief and practice that today claim the spiritual allegiance of hundreds of millions around the globe By drawing on the works of the great masters Islam in its own words Peters enriches our understanding of the community of those who have submitted and their imposing religious and political culture which is becoming ever more important to the West
