Claudius Bombarnac Or a Special Correspondent and Foundling Mick (2 Books) Jules Verne, 2016-08-12 Claudius Bombarnac Or A Special Correspondent and Foundling Mick 2 Books THE VOYAGES EXTRAORDINAIRES Books 34 35 This is the name of the sequence of fifty four novels written Jules Verne originally published between 1863 and 1905 Verne's editor Pierre Jules Hetzel said that the goal of these novels was to outline all the geographical geological physical and astronomical knowledge amassed by modern science and to recount in an entertaining

and picturesque format the history of the universe In Verne s own words his intention was to complete before my working days are done a series which shall conclude in story form my whole survey of the world s surface and the heavens there are still left corners of the world to which my thoughts have not yet penetrated As you know I have dealt with the moon but a great deal remains to be done and if health and strength permit me I hope to finish the task Verne s meticulous attention to detail and scientific trivia coupled with his sense of wonder and exploration are the backbone of the Voyages Part of the reason for the broad appeal of his work was the sense that the reader could acquire knowledge of geology biology astronomy paleontology oceanography etc as well as to travel to the exotic locations and cultures of the world through the adventures of Verne s protagonists
