Myth, Philosophy, and Literature Olivier Serrat,2025-12-01 This book explores significant literary and critical thinking achievements that have shaped our world This slim yet comprehensive guide is divided into three parts Dawn of the Western Tradition Epistemologies of Knowledge and Literary Phenomenology Cultural Contexts Exploring Identity Truth Ecology Blending ancient wisdom with modern insights this book delves into a wide array of topics including aesthetics comparative literature cultural historical psychology ecocritical analysis epistemology ethics historiography the mind body problem literary phenomenology literary theory mythology and sociocultural context It examines the works of notable figures such as the timeless scribe of Gilgamesh Hesiod Homer Sappho Thucydides Cervantes Descartes the Dalai Lama and Pope Francis Additionally it scrutinizes insights from prominent thinkers including Antonio Mu oz Molina Christopher Booker David Castillo Timothy Morton Gilbert Ryle Mary Klages Rita Felski Terry Gilliam and William Egginton *Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams* Stefanie Schult,2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the

author and his skilled composition of the world and all its aspects as well as on the reader's acceptance of this invented fictional world. The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader's immersion in the fictional world. The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories: Language and Linguistic Variation, Physiopoeia, Anthropoeia, and Mythopoeia. Furthermore, this thesis shows that as contemporary examples of fantastic literature, both Tad Williams's and Terry Pratchett's fictional worlds are successfully created through the realization of these aspects of Subcreation. Apart from commenting on the success of the subcreative process, this thesis also remarks upon the cultural influences both authors include in their writings. While both may be considered Anglophone in a general categorization, Pratchett's Discworld retains a feeling of Britishness that is not to be found in Williams's Otherland. The thesis proposes several approaches to Subcreation that may be studied subsequently. So, for example, it may be possible to determine the success of an author's Subcreation by collecting empirical data. Apart from literary works, this field of studies may also include other media.
