Classical Japanese Cinema Revisited Catherine Russell, 2011-06-16 Catherine Russell's highly accessible book approaches Japanese cinema as an industry closely modeled on Hollywood focusing on the classical period those years in which the studio system dominated all film production in Japan from roughly 1930 to 1960 Respectful and thoroughly informed about the aesthetics and critical values of the Japanese canon Russell is also critical of some of its ideological tendencies and her analyses provide new insights on class and gender dynamics Russell locates Japanese cinema within a global system of reception and she highlights the importance of the industrial production context of these films Including studies of landmark films by Ozu Kurosawa and other directors this book provides a perfect introduction to a crucial and often misunderstood area of Japanese cultural output With a critical approach that highlights the everydayness of Japanese studio era cinema Catherine Russell demystifies the canon of great Japanese cinema treating it with fewer auteurist and Orientalist

When a Woman Ascends the Stairs (Onna ga kaidan o agaru toki) Catherine Russell, 2025-03-27 Mikio Naruse's *When A Woman Ascends The Stairs* 1960 combines high melodrama with modernist film language telling the story of Keiko a bar hostess struggling to succeed in Tokyo's Ginza district Catherine Russell's study of the film provides an in depth analysis of Naruse's distinctive filmmaking from his use of two shots in confined spaces unique lighting techniques and his invisible and rhythmic editing style She analyses the recurring motif of a woman's white stockinged feet climbing stairs considering how this symbolizes the social dynamics of the high class Japanese sex industry that sustains hostess bar culture Russell goes on to argue that the film is a late woman's film which engages with the institutional barriers to woman's success in postwar Japan She situates the film within the trajectory of Naruse's career and analyses how his social critique is balanced with an aestheticization of a harsh and brutally gendered world creating an affective tension that is symptomatic of Naruse's own position as an industrial worker

The Cinema of Naruse Mikio

Catherine Russell, 2008-09-08 The first English language book dedicated to an analysis of Naruse Mikio one of Japan's most prolific directors whose films provide unique insight into the representation of female subjectivity and modernity in Japan

Nippon Modern Mitsuyo Wada-Marciano, 2008-01-01 *Nippon Modern* is the first intensive study of Japanese cinema in the 1920s and 1930s a period in which the country's film industry was at its most prolific and a time when cinema played a singular role in shaping Japanese modernity During the interwar period the signs of modernity were ubiquitous in Japan's urban architecture literature fashion advertising popular music and cinema The reconstruction of Tokyo following the disastrous earthquake of 1923 highlighted the extent of this cultural transformation and the film industry embraced the reconfigured space as an expression of the modern Shochiku Kamata Film Studios 1920-1936 the focus of this study was the only studio that continued filmmaking in Tokyo following the city's complete destruction Mitsuyo Wada Marciano points to the influence of the new urban culture in Shochiku's interwar films acclaimed as *modan na eiga* or modern films by and for Japanese Wada Marciano's thought provoking examinations illustrate the reciprocal relationship between cinema and Japan's vernacular modernity what Japanese modernity actually meant to Japanese Her thorough and thoughtful analyses of dozens of films within the cultural contexts of Japan contribute to the current inquiry into non Western vernacular modernities

[Japanese Classical Theater in Films](#) Keiko I. McDonald, 1994 Noh Kabuki and Bunraku are the three distinct genres of classical theater that have made Japan s dramatic art unique The audience steeped in these traditional theatrical forms sees many aspects of stage conventions in Japanese cinema This intimacy makes the aesthetic intellectual experience of films more enriching Japanese Classical Theater in Films aims at heightening such awareness in the West the awareness of the influence that these three major dramatic genres have

had on Japan's cinematic tradition. Using an eclectic critical framework, a solid combination of historical and cultural approaches reinforced with formalist and auteurist perspectives, Keiko I. McDonald undertakes this much-needed ambitious task. *Japanese Cinema Between Frames* (Laura Lee, 2017-11-08). This book explores the rich complexity of Japan's film history by tracing how cinema has been continually reshaped through its dynamic engagement within a shifting media ecology. Focusing on techniques that draw attention to the interval between frames on the filmstrip—something that is generally obscured in narrative film—Lee uncovers a chief mechanism by which, from its earliest period, the medium has capitalized on its materiality to instantiate its contemporaneity. In doing so, cinema has bound itself tightly with adjacent visual forms such as anime and manga to redefine itself across its history of interaction with new media, including television, video, and digital formats. *Japanese Cinema Between Frames* is a bold examination of Japanese film aesthetics that reframes the nation's cinema history, illuminating processes that have both contributed to the unique texture of Japanese films and yoked the nation's cinema to the global sphere of film history.
