Frick, Christopher T. Barry, Randy W. Kamphaus, 2010 As the knowledge base of child clinical and pediatric assessment continues to grow rapidly so does the need for up to date information explanations and references especially now as commonly used tests are revised and reevaluated regularly and evidence based assessment has become the standard for practice The Third Edition of Clinical Assessment of Child and Adolescent Personality and Behavior is an ideal update designed to help graduate students and practitioners meet the challenges of assessing and improving services to these young clients This highly accessible research to practice text offers the depth of coverage necessary to understand the field It is firmly rooted in current knowledge on psychopathology and normative development The authors review the various

types of measures used to assess children's emotion behavior and personality and they provide clear recommendations for their use. In addition, they emphasize skills from rapport building to report writing that are crucial to clinical expertise regardless of theoretical background. Finally, the authors provide clear guidelines for conducting evidence-based assessments of some of the most common forms of psychopathology experienced by children and adolescents. This new edition focuses on key psychological constructs in child and adolescent development that are important for guiding the assessment process. Provides current research findings to encourage evidence-based practice. Compares tests and assessment methods so that readers can make the most appropriate choices. Provides clear guidelines for using various assessment methods in clinical assessments. Provides guidelines in such important areas as legal and ethical issues, cultural considerations, and communication of assessment results. Features case examples, text boxes, and other aids to comprehension. Includes special chapters to guide evidence-based assessment of ADHD, conduct problems, depression, anxiety, and autism spectrum disorders.

Clinical Assessment of Child and Adolescent Personality and Behavior
Paul J. Frick, Christopher T. Barry, Randy W. Kamphaus, 2020-06-11

The fourth edition of this textbook offers a scientific and practical context within which to understand and conduct clinical assessments of children's and adolescent's personality and behavior. The new edition ensures that the content is relevant to diagnostic criteria for major forms of child and adolescent psychopathology in the 5th edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM-5). It provides updated information on specific tests and discusses advances in research that have occurred since the last edition that are relevant for assessing the most common forms of psychopathology shown by children and adolescents. The volume is unique in providing both the scientific and ethical basis to guide psychological testing as well as providing practical advice for using specific tests and assessing specific forms of psychopathology. This new edition highlights how current trends in psychological classification such as the DSM-5 and the Research Domain Criteria should influence the clinical assessment of children and adolescents. Provides updates to professional standards that should guide test users. Discusses practical considerations in planning and conducting clinical assessments. Evaluates the most recent editions of common tests used in the clinical assessment of child and adolescent personality and behavior. Provides an overview of how to screen for early signs of emotional and behavioral risk for mental problems in children and adolescents. Discusses practical methods for integrating assessment information collected as part of a clinical assessment. Uses current research to guide clinical assessments of children with Attention Deficit Hyperactivity Disorder, conduct problems, depression, anxiety, and autism spectrum disorder.
