Data Analysis and Decision Support Daniel Baier, Reinhold Decker, Lars Schmidt-Thieme, 2005-07-13 It is a great privilege and pleasure to write a foreword for a book honoring Wolfgang Gaul on the occasion of his sixtieth birthday. Wolfgang Gaul is currently Professor of Business Administration and Management Science and the Head of the Institute of Decision Theory and Management Science Faculty of Economics University of Karlsruhe TH Germany. He is by any measure one of the most distinguished and eminent scholars in the world today. Wolfgang Gaul has been instrumental in numerous leading research initiatives and has achieved an unprecedented level of success in facilitating communication among researchers in diverse disciplines from around the world. A particularly remarkable and unique aspect of his work is that he has been a leading scholar in such diverse areas of research as graph theory and network models, reliability theory, stochastic optimization, operations research, probability theory, sampling theory, cluster analysis, scaling, and multivariate data analysis. His activities have been directed not only at these and other theoretical topics but also at applications of statistical and mathematical tools to a multitude of important problems in computer science, e.g., web mining, business research, e.g., market segmentation, management science, e.g., decision support systems, and behavioral sciences, e.g., preference measurement and data mining. All of his endeavors have been accomplished at the highest level of professional excellence. *Decision Support Systems V - Big Data Analytics for Decision Making* Boris Delibašić, Jorge E. Hernández, Jason Papathanasiou, Fátima Dargam, Pascale Zaraté, Rita Ribeiro, Shaofeng Liu, Isabelle Linden, 2015-05-18 This book constitutes the refereed proceedings of the First International Conference on Decision Support Systems Technology ICDSST 2015 held in Belgrade, Serbia, in May 2015. The theme of the event was Big Data Analytics for Decision Making, and it was organized by the EURO Association of European Operational Research Societies working group of Decision Support Systems EWG DSS. The eight papers presented in this book were selected out of 26 submissions after being carefully reviewed by at least three internationally known experts from the ICDSST 2015 Program Committee and external invited reviewers. The selected papers are representative of current and relevant research activities in the area of decision support systems, such as decision analysis for enterprise systems and non-hierarchical networks, integrated solutions for decision support and knowledge management in distributed environments, decision support system evaluations, and analysis through social networks, and decision support system applications in real-world environments. The volume is completed by an additional invited paper on big data decision making use cases. **Decision Support, Analytics, and Business Intelligence, Second Edition** Daniel J.
