Data Mining The 2014 Worldcomp International Conference Proceedings:

Proceedings of the Future Technologies Conference (FTC) 2019 Kohei Arai,Rahul Bhatia,Supriya Kapoor,2019-10-12 This book presents state of the art intelligent methods and techniques for solving real world problems and offers a vision of future research Featuring 143 papers from the 4th Future Technologies Conference held in San Francisco USA in 2019 it covers a wide range of important topics including but not limited to computing electronics artificial intelligence robotics security and communications and their applications to the real world As such it is an interesting exciting and inspiring read

Data Mining Robert Stahlbock,Gary M. Weiss,Mahmoud Abou-Nasr,Hamid Arabnia,2015-02-04 This volume contains papers presented at The 2014 International Conference on Data Mining DMIN 14 T p verso Semantic Web Challenges Harald Sack,Stefan Dietze,Anna Tordai,Christoph Lange,2016-10-08 This book constitutes the thoroughly refereed post conference proceedings of the third edition of the Semantic Web Evaluation Challenge SemWebEval 2016 co located with the 13th European Semantic Web conference held in Heraklion Crete Greece in May June 2016 This book includes the descriptions of all methods and tools that competed at SemWebEval 2016 together with a detailed description of the tasks evaluation procedures and datasets The contributions are grouped in the areas Open Knowledge Extraction OKE 2016 Semantic Sentiment Analysis SSA 2016 Question Answering over Linked Data QALD 6 Top K Shortest Path in Large Typed RDF Graphs Datasets Semantic Publishing SemPub2016

Feature Selection and Enhanced Krill Herd Algorithm for Text Document Clustering Laith Mohammad Qasim Abualigah,2018-12-18 This book puts forward a new method for solving the text document TD clustering problem which is established in two main stages i A new feature selection method based on a particle swarm optimization algorithm with a novel weighting scheme is proposed as well as a detailed dimension reduction technique in order to obtain a new subset of more informative features with low dimensional space This new subset is subsequently used to improve the performance of the text clustering TC algorithm and reduce its computation time The k mean clustering algorithm is used to evaluate the effectiveness of the obtained subsets ii Four krill herd algorithms KHAs namely the a basic KHA b modified KHA c hybrid KHA and d multi objective hybrid KHA are proposed to solve the TC problem each algorithm represents an incremental improvement on its predecessor For the evaluation process seven benchmark text datasets are used with different characterizations and complexities Text document TD clustering is a new trend in text mining in which the TDs are separated into several coherent clusters where all documents in the same cluster are similar The findings presented here confirm that the proposed methods and algorithms delivered the best results in comparison with other similar methods to be found in the literature

Advances in Data Mining. Applications and Theoretical Aspects Petra Perner,2016-06-27 This book constitutes the refereed proceedings of the 16th Industrial Conference on Advances in Data Mining ICDM 2016 held in New York NY USA in July 2016 The 33 revised full papers presented were carefully reviewed and selected from 100 submissions The topics range from theoretical aspects of data

mining to applications of data mining such as in multimedia data in marketing in medicine and in process control industry and society

Multidisciplinary Approaches to Neural Computing Anna Esposito, Marcos Faudez-Zanuy, Francesco Carlo Morabito, Eros Pasero, 2017-08-28 This book presents a collection of contributions in the field of Artificial Neural Networks ANNs The themes addressed are multidisciplinary in nature and closely connected in their ultimate aim to identify features from dynamic realistic signal exchanges and invariant machine representations that can be exploited to improve the quality of life of their end users Mathematical tools like ANNs are currently exploited in many scientific domains because of their solid theoretical background and effectiveness in providing solutions to many demanding tasks such as appropriately processing both for extracting features and recognizing mono and bi dimensional dynamic signals solving strong nonlinearities in the data and providing general solutions for deep and fully connected architectures Given the multidisciplinary nature of their use and the interdisciplinary characterization of the problems they are applied to which range from medicine to psychology industrial and social robotics computer vision and signal processing among many others ANNs may provide a basis for redefining the concept of information processing These reflections are supported by theoretical models and applications presented in the chapters of this book This book is of primary importance for a the academic research community b the ICT market c PhD students and early stage researchers d schools hospitals rehabilitation and assisted living centers and e representatives of multimedia industries and standardization bodies

Machine Learning Algorithms and Applications in Engineering Prasenjit Chatterjee, Morteza Yazdani, Francisco Fernández-Navarro, Javier Pérez-Rodríguez, 2023-02-28 Machine Learning ML is a sub field of artificial intelligence that uses soft computing and algorithms to enable computers to learn on their own and identify patterns in observed data build models that explain the world and predict things without having explicit pre programmed rules and models This book discusses various applications of ML in engineering fields and the use of ML algorithms in solving challenging engineering problems ranging from biomedical transport supply chain and logistics to manufacturing and industrial Through numerous case studies it will assist researchers and practitioners in selecting the correct options and strategies for managing organizational tasks

Intelligent and Fuzzy Systems Cengiz Kahraman, Sezi Cevik Onar, Selcuk Cebi, Basar Oztaysi, A. Cagri Tolga, Irem Ucal Sari, 2024-08-29 This book presents recent research in intelligent and fuzzy techniques on Intelligent Industrial Informatics and Efficient Networks This cutting edge field integrates advanced technologies such as artificial intelligence machine learning and data analytics into industrial processes revolutionizing the way industries operate The book presents the examples of the implementation of smart sensors and IoT devices which facilitate real time data collection and communication High speed low latency networks ensure that information flows effortlessly between devices enabling timely responses and enabling the coordination of complex manufacturing processes This network architecture supports the integration of edge computing where data processing occurs closer to the source reducing latency and enabling faster decision making The readers can

benefit from this book for maintaining a leadership position among competitors in both manufacturing and service companies The intended readers are intelligent and fuzzy systems researchers lecturers M Sc and Ph D students studying intelligent and fuzzy techniques The book covers fuzzy logic theory and applications heuristics and metaheuristics from optimization to machine learning from quality management to risk management making the book an excellent source for researchers

Communication and Intelligent Systems Harish Sharma,Vivek Shrivastava,Kusum Kumari Bharti,Lipo

Wang,2022-08-18 This book gathers selected research papers presented at the Third International Conference on Communication and Intelligent Systems ICCIS 2021 organized by National institute of Technology Delhi India during December 18 19 2021 This book presents a collection of state of the art research work involving cutting edge technologies for communication and intelligent systems Over the past few years advances in artificial intelligence and machine learning have sparked new research efforts around the globe which explore novel ways of developing intelligent systems and smart communication technologies The book presents single and multi disciplinary research on these themes in order to make the latest results available in a single readily accessible source Securing Social Networks in Cyberspace Al-Sakib Khan

Pathan,2021-10-10 This book collates the key security and privacy concerns faced by individuals and organizations who use various social networking sites This includes activities such as connecting with friends colleagues and family sharing and posting information managing audio video and photos and all other aspects of using social media sites both professionally and personally In the setting of the Internet of Things IoT that can connect millions of devices at any one time the security of such actions is paramount Securing Social Networks in Cyberspace discusses user privacy and trust location privacy protecting children managing multimedia content cyberbullying and much more Current state of the art defense mechanisms that can bring long term solutions to tackling these threats are considered in the book This book can be used as a reference for an easy understanding of complex cybersecurity issues in social networking platforms and services It is beneficial for academicians and graduate level researchers General readers may find it beneficial in protecting their social media related profiles
