Tutorial--database Management James A. Larson, IEEE Computer Society, 1987 *Resources in Education*, 1999

Education in Nigeria Daniel A. Nomishan, 2014-12-26 This book *Education in Nigeria Reflections and Global Perspectives* provides a broad overview of education in Nigeria. It recognizes the vital role education plays in the development of Nigeria and has attempted to air the concerns and call of the Nigerian public as well as educators for reform in the educational system in Nigeria. The book further recognizes that Nigerian education continues to be evolved first into a system of Western European education and then into a global system of education. It attempts to examine the status of education in Nigeria and thereby seeks solutions by exploring Nigeria's and global historical perspectives, current trends and future directions regarding students and learning, teachers and teaching, the school curriculum and administration of schools. It is expected that the comprehensive nature of the text will be beneficial to individuals in teacher preparation programs as well as those who plan to work with children in pre-kindergarten, nursery through secondary settings. The chapter content of the book focuses on the variation of thought as to the principal objectives of educators to help students in Nigeria develop habits, skills and ideas and help them to think. It adds to the importance of providing education to all, especially at the time when Nigeria is frankly making an effort to affirm democracy. For any nation to be truly democratic, it must maintain an educated electorate. Education prepares people to make informed decisions that affect the society. All children in Nigeria should therefore receive an education to prepare them to become effective members of the world society. This book seeks to examine and reflect on education in Nigeria and globally.

Renegade Kids, Suburban Outlaws Wayne S. Wooden, Randy Blazak, 2001 Topics covered include exploring boundary between deviance and criminality in the lives of young people who are deeply involved in the youth culture, show how youth culture is not a set of categories so much as it is a dynamic and creative response to the confusions of growing up in modern society.

The Software Encyclopedia 2001, 2001 **Religious Ideas, Feelings and Their Interrelationship** Theo van der Zee, 2007

Religious education seeks to help students acquire religious ideas by interpreting religious and other stories in accordance with their life world Schools pursue this goal by organising religious learning activities The question is whether the acquisition of religious ideas is possible for young students considering the difficulties such as the complex and not readily understandable religious stories and social developments as de institutionalisation de traditionalisation and pluralisation What are the possibilities for primary schools of teaching their students knowledge about religious ideas What is the influence of feelings on the acquisition What possibilities in the form of learning arrangements can be created for primary school students with their diverse religious backgrounds to acquire religious ideas optimally That is the cardinal problem explored in this study
