Tim Haughton, Kevin Deegan-Krause

Challenge Of Politics 4th Edition:

Challenge of Politics, 4th Edition Neal Riemer, Douglas W. Simon, Joseph Romance, 2013-02-15 So often political science is introduced to students as a segmented field The Challenge of Politics instead enables students to see how the subfields converge around a set of crucial questions can we as citizens and students articulate and defend a view of the good political life and its guiding political values Can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics Can we bring a high level of political prudence or wisdom to bear on judgments about politics and public issues Can citizens and students creatively address the future of politics Riemer Simon and Romance aim to harmonize the valuable lessons of classic and contemporary theory as well as to reconcile politics to scientific and empirical study The book gives students an avenue to explore the impact of philosophy and ideology to recognize major forms of government to evaluate empirical findings and to understand how policy issues directly affect people's lives Throughout the authors look at political dynamics of American comparative and international affairs While continuing to pursue its distinctive normative approach and showing politics to be a potentially humanizing enterprise this new edition of Challenge has been revised and updated for major world events like the global financial crisis recent elections in the U S and elsewhere important policy decisions like the recent Supreme Court ruling in the U S on healthcare and the aftermath of the Arab Spring Based on reviewer feedback it has also been substantially streamlined throughout The Challenge of Politics Douglas W. Simon, Joseph Romance, 2022-01-04 The Challenge of Politics balances classic political theory with contemporary politics to help students understand the fundamental questions of political science The authors relate insights of classic political thinkers both to their modern counterparts and to the political dynamics of American comparative and international affairs

The New Party Challenge Tim Haughton, Kevin Deegan-Krause, 2020-12-15 Why do some parties live fast and die young but others endure And why are some party systems more stable than others Based on a blend of data derived from both qualitative and quantitative sources The New Party Challenge develops new tools for mapping and measuring party systems and develops conceptual frameworks to analyse the dynamics of party politics particularly the birth and death of parties In addition to highlighting the importance of agency and choice in explaining the fate of parties the book underlines the salience of the clean versus corrupt dimension of politics charts the flow of voters in the new party subsystem and emphasizes the dimension of time and its role in shaping developments The New Party Challenge not only provides the first systematic book length study of political parties across Central Europe in the three decades since the 1989 revolutions charting and explaining the patterns of politics in that region it also highlights that similar processes are at play on a far wider geographical canvas The book concludes by reflecting on what the dynamics of party politics especially the emergence of so many new parties means for the health and quality of democracy and what could and should be done

Understanding Policy Domains their Salient Forces and Organisational Challenges Tapera O.

Chirawu,2012 Understanding Policy Domains their Salient Forces and Organisational Challenges examines the complexity of policy making processes within the context of human action arising from culture life necessities and politics It provides an understanding of human environmental and institutional behaviour and identifies the policy factors that underline the success or failure of governments and institutions This book provides policy makers practitioners and other researchers in the field with a clear understanding of the process of policy making and who is responsible for what It sets the tone for academics and policy practitioners to confront the problems and challenges that countries face as they seek to improve governance and service delivery The author provokes debate on the cause and effect of past present and future human actions bringing into play the issues of honesty transparency and political will He promotes policy as a way towards achieving social harmony in the human struggle for survival User friendly for both students and lecturers as well as for researchers government and NGO policy gurus Understanding Policy Domains their Salient Forces and Organisational Challenges is also valuable for political parties whose members are often unaware of this important aspect of government responsibility

Congress and the Politics of Problem Solving E. Scott Adler,John D. Wilkerson,2013-01-14 How do issues end up on the agenda Why do lawmakers routinely invest in program oversight and broad policy development What considerations drive legislative policy change For many Congress is an institution consumed by partisan bickering and gridlock Yet the institution s long history of addressing significant societal problems even in recent years seems to contradict this view Congress and the Politics of Problem Solving argues that the willingness of many voters to hold elected officials accountable for societal conditions is central to appreciating why Congress responds to problems despite the many reasons mustered for why it cannot The authors show that across decades of policy making problem solving motivations explain why bipartisanship is a common pattern of congressional behavior and offer the best explanation for legislative issue attention and policy change

Pluralism in Islamic Contexts - Ethics, Politics and Modern Challenges Mohammed Hashas,2021-03-12 This book brings together international scholars of Islamic philosophy theology and politics to examine these current major questions What is the place of pluralism in the Islamic founding texts How have sacred and prophetic texts been interpreted throughout major Islamic intellectual history by the Sunnis and Shi a How does contemporary Islamic thought treat religious and political diversity in modern nation states and in societies in transition How is pluralism dealt with in modern major and minor Islamic contexts How does modern political Islam deal with pluralism in the public sphere And what are the major internal and external challenges to pluralism in Islamic contexts These questions that have become of paramount relevance in religious studies especially during the last three four decades are answered as critically highlighted in Islamic founding sources the formative classical sources and how it has been lived and practiced in past and present Islamic majority societies and communities around the world Case studies cover Egypt Turkey Indonesia and Thailand besides various internal references to other contexts
