Nanoscale Textile Coatings for Enhanced Performance Shakeel Ahmed, Shahid Adeel, 2024-10-02 This book provides an overview of the latest developments and applications of nanoscale textile coatings. It covers materials used for creating these coatings, the different methods of applying them to textiles, and the various ways in which the coatings can improve the performance of the textiles. In addition to providing a technical understanding of the subject, the book also includes case studies and real world examples of using nanoscale coatings in the textile industry, including areas such as fashion, outdoor gear, and medical textiles. Additionally, the book explores the potential future applications of this technology, as well as the challenges and limitations that need to be overcome in order to bring these innovations to market. This book is a valuable resource for textile engineers, materials scientists, and anyone interested in the exciting field of nanoscale textile coatings. It also addresses the environmental impact of textile coatings and their safety for human use and disposal.
