Daughters Of A Coral Dawn:

Daughters of a Coral Dawn Katherine V. Forrest, 2011-01-01 The sky begins to shimmer with the silver of brilliant star clusters the eerie radiance of red and blue fluorescence One huge moon glowing gold is soon joined by two others much smaller which slowly rise above the horizon each jagged in shape as if carelessly formed Night falls suddenly and completely and we sit together in a glorious royal blue world illuminated with silver It is Mother who speaks softly So lovely a world is surely meant for women Late in the 22nd century the settling of a new world falls on the strong shoulders of young Megan The perfect leader she undertakes to guide her sisters to a new planet free from the shackles of the brutal Earth regime Negotiating politics in a society of women is second only to securing their safety When a landing party of men and women discover their colony Megan must decide if the outsiders will live or die And that includes Lt Laurel Meredith whose disturbing beauty is as dangerous to Megan as her people are to Megan's world

Daughters of an Amber Noon Katherine V. Forrest, 2014-01-01 Left behind by their sisters they've become the hunted In this gripping sequel to *Daughters of a Coral Dawn* Katherine V Forrest tells the story of an Earth beyond nightmare ruled by dictator Theo Zedera known simply as Zed whose weaponry is invincible With ruthless determination he seeks the vanished women remaining on Earth Among these women is the leader of the Unity the extraordinary Africa Contrera Zed's childhood friend as well as his colleague and intellectual equal As Africa struggles to build a world safe for women she is haunted by her past a time when she trusted Zed and shared with him the deadly knowledge he now uses to hunt her What future can there be for the women who call themselves the Unity How can they possibly conceal themselves from a world of savagery and a man who intends to find them at any cost A brilliant breathtaking romantic saga of a divided society and the rebels courageous enough to withstand a brutal new world

Delafield Katherine V. Forrest, 2022-04-01 The most celebrated detective in lesbian literature returns in the most fateful case of her career Kate Detective Joe Cameron said there was always the possibility that like most threats they were just threats Kate finished for him She knew better Had known from the start this was as real as death Death is now on her doorstep Not even her loyal LAPD colleagues can protect her from an attack that may come from anywhere anytime Four years retired Kate Delafield has a twenty year old case roaring back on her a case from which she had recoiled withdrawn herself A homophobic homicide far too reminiscent of a recent haunting life changing investigation of the murder of a young lesbian at the Nightwood Bar Now she suffers in secret knowing she is personally culpable for the mishandling of evidence She has also begun to understand how the roads she has traveled have led her to this day The key decisions about the conduct of her life and her police career that have brought her directly to this time this place in the high desert where she has taken herself All she can do now she resolves is protect as best she can the people she loves most especially Aimee from this threat And until her time runs out she can go back and investigate determine who actually ended the life of fifteen year old April Shuster But events people intervene New people in her present life some from her past And they will take her

in the most unexpected of directions *Daughters of an Emerald Dusk* Katherine V. Forrest, 2014-01-01 Fifty five years have passed since 4 000 women escaped a tyrannical Earth and colonized the planet of Maternas The women of the Unity have brought children into their world the first in the history of humankind to inherit a legacy of ultimate freedom and possibility But these children are a breed unto themselves They have bonded and communicate with each other in a way the older generation cannot fathom and most disturbing of all they question many of the Unity s cherished precepts laying claim to a rival standard of conduct Into this widening schism walks young Joss She becomes deeply involved with Emerald a woman who struggles to locate her long lost daughter and finds herself caught between two factions in a burgeoning conflict of the gravest proportions With *Daughters of an Emerald Dusk* Forrest has created her most electrifying suspenseful and yes sexiest novel yet in this acclaimed series that began in 1984 with *Daughters of a Coral Dawn* **Katherine V. Forrest**

Phyllis M. Betz, 2017-02-28 Best known for her Kate Delafield detective series Katherine V Forrest is recognized as one of the preeminent figures in lesbian popular literature Yet her work has received little scholarly attention This critical study explores Forrest s entire body of work including her fiction and perhaps more importantly her writing about writing popular genres and her readers Her science fiction and romance novels are analyzed with a focus on the reasons behind their enduring appeal Her most famous romance *Curious Wine* originally published in 1984 remains in print a longevity far exceeding the typical romance novel Romance Fiction Kristin Ramsdell, 2012-03-02 A comprehensive guide that defines the literature and the outlines the best selling genre of all time romance fiction More than 2 000 romances are published annually making it difficult for fans and the librarians who advise them to keep pace with new titles emerging authors and constant evolution of this dynamic genre Fortunately romance expert and librarian Kristin Ramsdell provides a definitive guide to this fiction genre that serves as an indispensable resource for those interested in it including fans searching for reading material as well as for library staff scholars and romance writers themselves This title updates the last edition of *Romance Fiction A Guide to the Genre* published in 1999 While the emphasis is on newer titles many of the important older classics are retained keeping the focus of the book on the entire genre instead of only those titles published during the last decade Specific changes include new chapters on linked and continuing romances a new section on Chick Lit in the Contemporary Romance chapter an expansion of coverage on the alternative reality subset This is THE romance genre guide to have Utopia on the 6Th Floor Steven H. The Lesbian Revolution Sheila Jeffreys,2018-09-03 The Lesbian Revolution argues that lesbian feminists were a vital force in the Women s Liberation Movement WLM They did not just play a fundamental role in the important changes wrought by second wave feminism but created a powerful revolution in lesbian theory culture and practice Yet this lesbian revolution is undocumented The book shows that lesbian feminists were founders of feminist institutions such as resources for women survivors of men s violence including refuges and rape crisis centres and that they were central to campaigns against this violence They created a feminist squatting movement theatre groups bands art and poetry and conducted campaigns for lesbian rights They also created a profound and challenging analysis of sexuality which has disappeared from the historical record They analysed heterosexuality as a political institution arguing that lesbianism was a political choice for feminists and indeed a form of resistance in itself Using interviews with prominent lesbian feminists from the time of the WLM and informed by the author s personal experience this book aims to challenge the way the work and ideas of lesbian feminists have been eclipsed and to document the lesbian revolution The book will be of key interest to scholars and students of women s history the history of feminism the politics of sexuality women s studies gender studies lesbian and gay studies queer studies and cultural studies as well as to the lay reader interested in the WLM and feminism more generally

Anticipations David Seed,1995-05-01 The essays in this book focus particularly on how early SF engages with such contemporary issues as exploration the development of science and social planning Although written by academics this book is cast in an accessible style avoiding the use of theoretical jargon
