Concise Dictionary of Comics Nancy Pedri, 2022-03-08 Written in straightforward jargon free language A Concise Dictionary of Comics guides students researchers readers and educators of all ages and at all levels of comics expertise It provides them with a dictionary that doubles as a compendium of comics scholarship A Concise Dictionary of Comics provides clear and informative definitions for each term It includes twenty five witty illustrations and pairs most defined terms with references to books articles book chapters and other relevant critical sources All references are dated and listed in an extensive up to date bibliography of comics scholarship Each term is also categorized according to type in an index of thematic groupings This organization serves as a pedagogical aid for teachers and students learning about a specific facet of comics studies and as a research tool for scholars who are unfamiliar with a particular term but know what category it falls into These features make A Concise Dictionary of Comics especially useful for critics students teachers and researchers and a vital reference to anyone else who wants to learn more about comics

Comic Books and Comic Strips in the United States through 2005 John Lent, 2006-04-30 This final work in John Lent's series of bibliographies on comic art gathers together an astounding array of citations on American comic books and comic strips Included in this volume are citations regarding anthologies and reprints criticism and reviews exhibitions festivals and awards scholarship and theory and the business artistic cultural legal technical and technological aspects of American comics Author John Lent has used all manner of methods to gather the citations searching library and online databases contacting scholars and other professionals attending conferences and festivals and scanning hundreds of periodicals He has gone to great length to categorize the citations in an easy to use scholarly fashion and in the process has helped to establish the field of comic art as an important part of social science and humanities research The ten volumes in this series covering all regions of the world constitute the largest printed bibliography of comic art in the world and serve as the beacon guiding the burgeoning fields of animation comics and cartooning They are the definitive works on comic art research and are exhaustive in their inclusiveness covering all types of publications academic trade popular fan etc from all over the world Also included in these books are citations to systematically researched academic exercises as well as more ephemeral sources such as fanzines press articles and fugitive materials conference papers unpublished documents etc attesting to Lent's belief that all pieces of information are vital in a new field of study such as comic art

Graphic Novels Beyond the Basics Martha Cornog, Timothy Perper, 2009-08-25 This study of the graphic novel and its growth in the library helps librarians utilize and develop this extraordinarily popular format in their library

collections What does the surge of popularity in graphic novels mean for libraries Graphic Novels Beyond the Basics Insights and Issues for Libraries goes deeper into this subject than any other volume previously published bringing together a distinguished panel of experts to examine questions librarians may encounter as they work to enhance their graphic novel holdings Graphic Novels Beyond the Basics begins by introducing librarians to the world of the graphic novel popular and critically acclaimed fiction and nonfiction titles a wide range of genres including Japanese manga and other international favorites recurring story and character archetypes and titles created for specific cultural audiences and female readers The book then offers a series of chapters on key issues librarians will face with graphic novels on the shelves including processing and retention questions preservation and retention collecting related media such as Japanese anime films and video games potential grounds for patron or parental complaints the future of graphic novels and more

Comics and Conflict Cord A Scott, 2014-09-15 Illustration has been an integral part of human history Particularly before the advent of media such as photography film television and now the Internet illustrations in all their variety had been the primary visual way to convey history The comic book which emerged in its modern form in the 1930s was another form of visual entertainment that gave readers especially children a form of escape As World War II began however comic books became a part of propaganda as well providing information and education for both children and adults This book looks at how specific comic books of the war genre have been used to display patriotism adventure through war stories and eventually to tell of the horrors of combat from World War II through the current conflicts in Iraq and Afghanistan in the first decade of the twenty first century This book also examines how war and patriotically themed comics evolved from soldier drawn reflections of society eventually developing along with the broader comic book medium into a mirror of American society during times of conflict These comic books generally reflected patriotic fervor but sometimes they advanced a specific cause As war comic books evolved along with American society many also served as a form of protest against United States foreign and military policy During the country's most recent wars however patriotism has made a comeback at the same time that the grim realities of combat are depicted more realistically than ever before The focus of the book is not only on the development of the comic book medium but also as a bell weather of society at the same time How did they approach the news of the war Were people in favor or against the fighting Did the writers of comics promote a perception of combat or did they try to convey the horrors of war All of these questions were important to the research and serve as a focal point for what has been researched only in limited form previously The conclusions of the book show that comic books are more than mere forms of entertainment Comic books were also a way of political protest against war or what the writers felt were wider examples of governmental abuse In the post 9 11 era the comic books have returned to their propagandistic patriotic roots

Autobiographical Comics Elisabeth El Refaie, 2012-10-24 A troubled childhood in Iran Living with a disability Grieving for a dead child Over the last forty years the comic book has become an increasingly popular way of telling personal stories of considerable complexity and depth In

Autobiographical Comics Life Writing in Pictures Elisabeth El Refaie offers a long overdue assessment of the key conventions formal properties and narrative patterns of this fascinating genre The book considers eighty five works of North American and European provenance works that cover a broad range of subject matters and employ many different artistic styles Drawing on concepts from several disciplinary fields including semiotics literary and narrative theory art history and psychology El Refaie shows that the traditions and formal features of comics provide new possibilities for autobiographical storytelling For example the requirement to produce multiple drawn versions of one s self necessarily involves an intense engagement with physical aspects of identity as well as with the cultural models that underpin body image The comics medium also offers memoirists unique ways of representing their experience of time their memories of past events and their hopes and dreams for the future Furthermore autobiographical comics creators are able to draw on the close association in contemporary Western culture between seeing and believing in order to persuade readers of the authentic nature of their stories

Encyclopedia of Comic Books and Graphic Novels M. Keith Booker,2010-05-11 The most comprehensive reference ever compiled about the rich and enduring genre of comic books and graphic novels from their emergence in the 1930s to their late century breakout into the mainstream At a time when graphic novels have expanded beyond their fan cults to become mainstream bestsellers and sources for Hollywood entertainment Encyclopedia of Comic Books and Graphic Novels serves as an exhaustive exploration of the genre s history its landmark creators and creations and its profound influence on American life and culture Encyclopedia of Comic Books and Graphic Novels focuses on English language comics plus a small selection of influential Japanese and European works available in English with special emphasis on the new graphic novel format that emerged in the 1970s Entries cover influential comic artists and writers such as Will Eisner Alan Moore and Grant Morrison major genres and themes and specific characters comic book imprints and landmark titles including the pulp noir 100 Bullets the post apocalyptic Y The Last Man the revisionist superhero drama Identity Crisis and more Key franchises such as Superman and Batman are the center of a constellation of related entries that include graphic novels and other imprints featuring the same characters or material

Graphic Novels Michael Pawuk,David S. Serchay,2017-05-30 Covering genres from adventure and fantasy to horror science fiction and superheroes this guide maps the vast terrain of graphic novels describing and organizing titles to help librarians balance their graphic novel collections and direct patrons to read alike New subgenres new authors new artists and new titles appear daily in the comic book and manga world joining thousands of existing titles some of which are very popular and well known to the enthusiastic readers of books in this genre How do you determine which graphic novels to purchase and which to recommend to teen and adult readers This updated guide is intended to help you start update or maintain a graphic novel collection and advise readers about the genre Containing mostly new information as compared to the previous edition the book covers iconic super hero comics and other classic and contemporary crime fighter based comics action and adventure comics including prehistoric heroic explorer and

Far East adventure as well as Western adventure science fiction titles that encompass space opera fantasy aliens post apocalyptic themes and comics with storylines revolving around computers robots and artificial intelligence There are also chapters dedicated to fantasy titles horror titles such as comics about vampires werewolves monsters ghosts and the occult crime and mystery titles regarding detectives police officers junior sleuths and true crime comics on contemporary life covering romance coming of age stories sports and social and political issues humorous titles and various nonfiction graphic novels

Second Language Cultural Negotiation and Visual Literacy Alec Lapidus, 2020-09-29 Second Language Cultural Negotiation and Visual Literacy looks at the theory behind cultural learning at the intersection of culture visuals and emotions and offers a theoretical and practical foundation upon which teachers can build Bringing to light theoretical work from multilingual sources this book illuminates the process of second language cultural negotiation as subjective affective and reliant on imagination and applies this theoretical basis to using comics inside and outside the classroom It re examines the popular Vygotskian concept of meaning making in the Zone of Proximal Development and identifies sequential art as a unique and legitimate academic medium that can enable cultural negotiation in a diverse and increasingly globalized society This book explores the mechanism employed by English language learners reading comics to make meaning Lapidus establishes interdisciplinary research as a valuable form of research and draws upon the concept of multiliteracies to illuminate the multimodal nature of meaning making Presenting theory and its practical ramifications this book will be of interest to undergraduate and graduate students language teachers and anyone who enjoys exploring the way humans learn

Science Communication and Public Engagement Denisse Vásquez-Guevara, 2023-05-31 This book offers a historical description of science communication and addresses the gaps in the literature with the correspondent counterproposals to address these issues to promote audiences engagement with science Denisse V squez Guevara offers practical guidelines to develop and implement effective science communication Contributors present several communication theories research and participatory intervention methodologies data collection and facilitation tools contrasted with scientific evidence and case studies to illustrate how to carry out engaging initiatives that unite researchers and people around collaboration and interest in scientific research Scholars of science communication participatory action research and decolonial methodologies will find this book of particular interest
