*Coming to Terms with Chinese Buddhism* Robert H. Sharf, 2005-11-30 The issue of sinification the manner and extent to which Buddhism and Chinese culture were transformed through their mutual encounter and dialogue has dominated the study of Chinese Buddhism for much of the past century Robert Sharf opens this important and far reaching book by raising a host of historical and hermeneutical problems with the encounter paradigm and the master narrative on which it is based *Coming to Terms with Chinese Buddhism* is among other things an extended reflection on the theoretical foundations and conceptual categories that undergird the study of medieval Chinese Buddhism Sharf draws his argument in part from a meticulous historical philological and philosophical analysis of the Treasure Store Treatise Pao tsang lun an eighth century Buddho Taoist work apocryphally attributed to the fifth century master Seng chao 374 414 In the process of coming to terms with this recondite text Sharf ventures into all manner of subjects bearing on our understanding of medieval Chinese Buddhism from the evolution of T ang gentry Taoism to the pivotal role of image veneration and the problematic status of Chinese Tantra The volume includes a complete annotated translation of the Treasure Store Treatise accompanied by the detailed exegesis of dozens of key terms and concepts *The Oxford Handbook of the Bible in China* Khiok-Khng Yeo, 2021 *The Oxford Handbook of the Bible in China* deftly examines the Bible s translation expression interpretation and reception in China Forty eight essays address the translation of the Bible into China s languages and dialects expression of the Bible in Chinese literary and religious contexts Chinese biblical interpretations and methods of reading and the reception of the Bible in the institutions and arts of China This comprehensive and unique volume presents insightful succinct and provocative evidence about and interpretations of encounters between the Bible and China for centuries past continuing into the present and likely prospects for the future **Empires and Exchanges in Eurasian Late Antiquity** Nicola Di Cosmo, Michael Maas, 2018-04-26 *Empires and Exchanges in Eurasian Late Antiquity* offers an integrated picture of Rome China Iran and the Steppes during a formative period of world history In the half millennium between 250 and 750 CE settled empires underwent deep structural changes while various nomadic peoples of the steppes Huns Avars Turks and others experienced significant interactions and movements that changed their societies cultures and economies This was a transformational era a time when Roman Persian and Chinese monarchs were mutually aware of court practices and when Christians and Buddhists criss crossed the Eurasian lands together with merchants and armies It was a time of greater circulation of ideas as well as material goods This volume provides a conceptual frame for locating these developments in the same space and time Without arguing for uniformity it illuminates the interconnections and networks that tied countless local cultural expressions to far reaching inter regional ones **Sanctity and Self-Inflicted Violence in Chinese Religions, 1500-1700** Jimmy Yu, 2012-05-24 Also includes some discussion of chastity suicides **Heaven Is Empty** Filippo Marsili, 2018-11-01 *Heaven Is Empty* offers a new comparative perspective on the role of the sacred in the formation of China

s early empires 221 BCE 9 CE and shows how the unification of the Central States was possible without a unitary and universalistic conception of religion The cohesive function of the ancient Mediterranean cult of the divinized ruler was crucial for the legitimization of Rome s empire across geographical and social boundaries Eventually reelaborated in Christian terms it came to embody the timelessness and universality of Western conceptions of legitimate authority while representing an analytical template for studying other ancient empires Filippo Marsili challenges such approaches in his examination of the reign of Emperor Wu of the Han 141 87 BCE Wu purposely drew from regional traditions and tried to gain the support of local communities through his patronage of local cults He was interested in rituals that envisioned the monarch as a military leader who directly controlled the land and its resources as a means for legitimizing radical administrative and economic centralization In reconstructing this imperial model Marsili reinterprets fragmentary official accounts in light of material evidence and noncanonical and recently excavated texts In bringing to life the courts battlefields markets shrines and pleasure quarters of early imperial China Heaven Is Empty provides a postmodern and postcolonial reassessment of religion before the arrival of Buddhism and challenges the application of Greco Roman and Abrahamic systemic identity and exclusionary notions of the sacred to the analysis of pre Christian and non Western realities **Traditional Chinese**

**Medicine in the United States** Emily S. Wu, 2013-06-06 Traditional Chinese medicine TCM originated from the traditional medical system in the Chinese civilization with influences from the Daoist and Chinese folk traditions in bodily cultivation and longevity techniques In the past few decades TCM has become one of the leading alternative medical systems in the United States This book demonstrates the fluidity of a medical ideological system with a rich history of methodological development and internal theoretical conflicts continuing to transform in our postmodern world where people and ideas transcend geographic ethnic and linguistic limitations The unique historical trajectories and cultural dynamics of the American society are critical nutrients for the localization of TCM while the constant traffic of travelers and immigrants foster the globalizing tendency of TCM The practitioners in this book represent an incredible range of clinical applications personal styles theoretical rationalizations and business models What really unifies all these practitioners is not their specific practices but the goal of these practices The shared goal is to strive for health not just health in terms of the lack of illness but the ultimate health of achieving perfect balance in every aspect of the being of a person physically mentally spiritually and energetically

Power of Place James Robson, 2020-03-17 Throughout Chinese history mountains have been integral components of the religious landscape They have been considered divine or numinous sites the abodes of deities the preferred locations for temples and monasteries and destinations for pilgrims Early in Chinese history a set of five mountains were co opted into the imperial cult and declared sacred peaks yue demarcating and protecting the boundaries of the Chinese imperium The Southern Sacred Peak or Nanyue is of interest to scholars not the least because the title has been awarded to several different mountains over the years The dynamic nature of Nanyue raises a significant theoretical issue of the mobility of

sacred space and the nature of the struggles involved in such moves Another facet of Nanyue is the multiple meanings assigned to this place political religious and cultural Of particular interest is the negotiation of this space by Daoists and Buddhists The history of their interaction leads to questions about the nature of the divisions between these two religious traditions James Robson s analysis of these topics demonstrates the value of local studies and the emerging field of Buddh Daoist studies in research on Chinese religion

**Dao Companion to Chinese Buddhist Philosophy** Youru Wang, Sandra A. Wawrytko, 2019-01-31 Too often Buddhism has been subjected to the Procrustean box of western thought whereby it is stretched to fit fixed categories or had essential aspects lopped off to accommodate vastly different cultural norms and aims After several generations of scholarly discussion in English speaking communities it is time to move to the next hermeneutical stage Buddhist philosophy must be liberated from the confines of a quasi religious stereotype and judged on its own merits Hence this work will approach Chinese Buddhism as a philosophical tradition in its own right not as an historical after thought nor as an occasion for comparative discussions that assume the west alone sets the standards for or is the origin of philosophy and its methodologies Viewed within their own context Chinese Buddhist philosophers have much to contribute to a wide range of philosophical concerns including metaphysics epistemology ethics philosophy of language philosophy of mind and philosophy of religion even though Western divisions of philosophy may not exhaust the rich contents of Chinese Buddhist philosophy

**A Late Sixteenth-Century Chinese Buddhist Fellowship** Jennifer Eichman, 2016-01-19 Through a detailed analysis of epistolary writing A Late Sixteenth Century Chinese Buddhist Fellowship Spiritual Ambitions Intellectual Debates and Epistolary Connections brings to life the Buddhist discourse of a network of lay disciples who debated the value of Chan versus Pure Land sudden versus gradual enlightenment adherence to Buddhist precepts and animal welfare By highlighting the differences between their mentor the monk Zhuhong 1535 1615 and his nemesis the Yangming Confucian Zhou Rudeng 1547 1629 this work confronts long held scholarly views of Confucian dominance to conclude that many classically educated elite men found Buddhist practices a far more attractive option Their intellectual debates self cultivation practices and interpersonal relations helped shape the contours of late sixteenth century Buddhist culture

**Interrelatedness in Chinese Religious Traditions** Diana Arghirescu, 2022-11-17 The study of religions is essential for understanding other cultures building a sense of belonging in a multicultural world and fostering a global intercultural dialogue Exploring Chinese religions as one interlocutor in this dialogue Diana Arghirescu engages with Song dynasty Confucian and Buddhist theoretical developments through a detailed study of the original texts of the Chan scholar monk Qisong 1007 1072 and the Neo Confucian master Zhu Xi 1130 1200 Starting with these figures she builds an interpretive theory focusing on ethical interrelatedness and proposes it as a theoretical tool for the study of the Chinese religious traditions By actively engaging with other contemporary theories of religion and refusing to approach Chinese religions with Western frameworks Arghirescu s comparative perspective makes it possible to uncover differences between

the various Western and Chinese cultural presuppositions upon which these theories are built As such this book breaks new ground in the methodology of religious studies comparative philosophy and furthers our understanding of the Confucian Buddhist interaction
