European Yearbook of International Economic Law 2014 Christoph Herrmann, Markus Krajewski, Jörg Philipp Terhechte, 2014-02-10 In 2014 the global economic system celebrates two anniversaries Seventy years ago on 22 July 1944 at Bretton Woods New Hampshire the Articles of Agreement of the International Monetary Fund IMF and the Articles of Agreement of the International Bank for Reconstruction and Development Worldbank were adopted Since then the global financial and monetary system underwent significant policy changes but the institutional framework remained the same More recently twenty years ago on 15 April 1994 the Final Act of the Uruguay Round of Multilateral Trade Negotiations was signed and its key component the Agreement establishing the World Trade Organization entered into force on 1 January 1995 Even though the beginning of the multilateral trading system dates back to the late 1940s the founding of the WTO constitutes a significant institutional reform which marks the beginning of a new era Anniversaries are usually moments of celebration However even a superficial observer will notice that neither the current international financial and monetary regime nor the international trade regime is in a stage which invites celebration Instead both are facing difficult and fundamental challenges to their very existence from the outside but also from within So while there may be no time to celebrate anniversaries are also often used for reflection about the past and the future Hence EYIEL 5 2014 considers these two anniversaries ample moments to reflect on the legacy and the current status of the main two pillars of International Economic Law in its Part one Part two of EYIEL 5 2014 brings together contributions on the EU's Deep Trade Agenda on Current Approaches to the International Investment Regime in South America on the Multilayered System of Regional Economic Integration in West Africa and on the Tripartite Free Trade Area as well as on India and her Trade Agreements Part three contains treatises of developments in the World Customs Organization the World Intellectual Property Organization and in International Investment Law After the book reviews in Part four EYIEL 5 2014 is complemented with an Annex containing the Case on exchange rate manipulation and crisis caused guarantees to financial institutions and the Best Submissions of the 11th EMC2 ELSA WTO Moot Court Competition of the Harvard team for the complainant and the Leuven team for the respondent The case not only addresses issues of current interest but also links the subjects of our two special focusses nicely together

European Yearbook of International Economic Law 2012 Christoph Herrmann, Jörg Philipp Terhechte, 2011-12-20 The third volume of the European Yearbook of International Economic law focuses on two major topics of current academic and political interest Firstly it addresses the 10th anniversary of China's accession to the WTO and its implications secondly it deals with different legal aspects of global energy markets

European Yearbook of

International Economic Law 2018 Marc Bungenberg, Markus Krajewski, Christian J. Tams, Jörg Philipp Terhechte, Andreas R. Ziegler, 2019-02-25 Volume 9 of the EYIEL focusses on natural resources law understood as a special area of international economic law In light of increasing conflicts over access to and the use of natural resources and of their impact on political social and environmental aspects the contributions of this volume analyse to which extent international economic law can contribute to the sustainable exploitation management and distribution of natural resources The volume collects contributions on general principles of natural resources law the importance of natural resources for trade investment and European economic law as well as analyses of particular sectors and areas including fracking timber space and deep seabed mining and natural resources in the arctic region In its section on regional developments EYIEL 9 addresses two regional integration systems which are usually not at the centre of public interest but which deserve all the more attention due to their special relations with Europe The Eurasian Economic Union and the Caribbean Community CARICOM Further EYIEL sections address recent WTO and investment case law as well as developments at the IMF The volume also contains review essays of important recent books in international economic law and other aspects of international law which are connected to international economic relations The chapter Sovereignty Ownership and Consent in Natural Resource Contracts From Concepts to Practice by Lorenzo Cotula is open access under a CC BY 4.0 license via link [springer.com](https://www.springer.com)

The Reach of Free Movement Mads Andenas, Tarjei Bekkedal, Luca Pantaleo, 2017-09-26 The reach of free movement within the EU Internal Market and what constitutes a restriction are the topics of this book For many years the tension between free movement and restrictions have been the subject of intense discussion and controversy and this includes the constitutional reach of the rights conferred by the Treaty of Lisbon Anything that makes movement less attractive or more burdensome may constitute a restriction Restrictions may be justified but only if proportionate The reach of free movement is fundamental to the Internal Market both for the economic constitution and increasingly for individual rights in a European legal order that provides constitutional guarantees for rights exceeding those of free movement The interaction between fundamental rights and fundamental freedoms to movement distinguishes the EU legal order from the national legal systems The book falls into four parts The Reach of Free Movement Justifications and Proportionality Fundamental Rights and Looking Abroad The clear discussion of the fundamentals and dilemmas regarding the subject of this book should prove useful for academics practitioners graduate students as well as EU officials and judges wishing to stay updated on the ongoing scholarly debate regarding relevance to case law Mads Andenas is Professor at the Department of Private Law University of Oslo and at the Institute of Advanced Legal Studies School of Advanced Studies University of London Tarjei Bekkedal is Professor at the Centre for European Law University of Oslo and the Chair of the Norwegian Association for European Law Luca Pantaleo is a Lecturer in EU law at The Hague University of Applied Sciences who obtained a PhD in International and EU Law in 2013 at the University of Macerata in Italy and who was previously a Senior Researcher at the T M C Asser Institute and Postdoctoral

researcher at the University of Luxembourg Specific to this book Up to date analysis of the reach of free movement within the EU Internal Market and what constitutes a restriction Chapters by leading authorities and a number of young scholars active in various interconnected fields such as European law Constitutional law and Human Rights law international law global governance European trade and commercial law European Financial Services law and procedural law The strength of the content lies both in its highly practical and theoretical applicability

EU Trade and Investment Treaty-Making Post-Lisbon Gesa Kübek, 2024-06-27 This book offers the first thorough legal analysis of the practice of mixity since the Lisbon Treaty providing the perspectives of international EU and national law It sets out a detailed theoretical understanding of mixity the common commercial policy and the recent case law of the EU Court of Justice It assesses recent practice and current challenges such as the non ratification of mixed agreements ensuring parliamentary participation in EU treaty making the new architecture for concluding EU trade and investment agreements as well as the new trade agreement between the EU and the UK post Brexit In so doing the author argues that in the field of trade and investment mixity is no longer a procedural technique to overcome legal uncertainties about competence allocations between the EU and the Member States Instead mixity has become a deliberate substantive design choice This brings a fresh and innovative perspective to a key tenet of EU external relations law

Between Compliance and Particularism Marton Varju, 2019-02-08 The book examines how the interests of the member states which provide the primary driving force for developments in European integration are internalised and addressed by the law of the European Union In this context member state interests are taken to mean the policy considerations economic calculations local socio cultural factors and the raw expressions of political will which shape EU policies and determine member state responses to the obligations arising from those policies The book primarily explores the junctions and disjunctions between member state interests defined in such a manner and EU law where the latter expresses either an obligation for the member states to comply with common policies or an acceptance of member state particularism under the common EU framework
