New Frontiers in Contraceptive Research Institute of Medicine, Board on Health Sciences Policy, Committee on New Frontiers in Contraceptive Research, 2004-04-12 More than a quarter of pregnancies worldwide are unintended Between 1995 and 2000 nearly 700 000 women died and many more experienced illness injury and disability as a result of unintended pregnancy Children born from unplanned conception are at greater risk of low birth weight of being abused and of not receiving sufficient resources for

healthy development A wider range of contraceptive options is needed to address the changing needs of the populations of the world across the reproductive life cycle but this unmet need has not been a major priority of the research community and pharmaceutical industry New Frontiers in Contraceptive Research A Blueprint for Action a new report from the Institute of Medicine of the National Academies identifies priority areas for research to develop new contraceptives The report highlights new technologies and approaches to biomedical research including genomics and proteomics which hold particular promise for developing new products It also identifies impediments to drug development that must be addressed Research sponsors both public and private will find topics of interest among the recommendations which are diverse but interconnected and important for improving the range of contraceptive products their efficacy and their acceptability **Contraceptive**

Research and Development Institute of Medicine, Committee on Contraceptive Research and Development, 1996-12-04 The contraceptive revolution of the 1960s and 1970s introduced totally new contraceptive options and launched an era of research and product development Yet by the late 1980s conditions had changed and improvements in contraceptive products while very important in relation to improved oral contraceptives IUDs implants and injectables had become primarily incremental Is it time for a second contraceptive revolution and how might it happen Contraceptive Research and Development explores the frontiers of science where the contraceptives of the future are likely to be found and lays out criteria for deciding where to make the next R D investments The book comprehensively examines today s contraceptive needs identifies niches in those needs that seem most readily translatable into market terms and scrutinizes issues that shape the market method side effects and contraceptive failure the challenge of HIV AIDS and other sexually transmitted diseases and the implications of the women s agenda Contraceptive Research and Development analyzes the response of the pharmaceutical industry to current dynamics in regulation liability public opinion and the economics of the health sector and offers an integrated set of recommendations for public and private sector action to meet a whole new generation of demand
