Handbook of Career Development Gideon Arulmani,Anuradha J. Bakshi,Frederick T. L. Leong,A. G. Watts,2014-02-08 This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous An examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies some of the largest workforces in the world are in the developing world Career

guidance is rapidly emerging as a strongly felt need in these contexts If more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development This does not mean that existing ideas are to be discarded Instead an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling **The Good**

Building Healthy Communities for Positive Youth Development Michael J. Nakkula,Karen C. Foster,Marc Mannes,Shenita Bolstrom,2010-07-23 It is a great pleasure to offer this volume from Michael J Nakkula Karen C Foster Marc Mannes and Shenita Bolstrom as the latest in the Search Institute Series on Developmentally Attentive Community and Society Its importance to the series and this eld of inquiry and practice is readily evident in its title *Building Healthy Communities for Positive Youth Development* Since the early 1990s Search Institute has invited and encouraged communities of all shapes and sizes to use its framework of Developmental Assets and principles of asset building to create strong vibrant and welcoming communities for children and youth We have operated largely at the grassroots level encouraging innovation and adaptation around a shared vision rather than proposing a program or model for replication We seek to learn as much from the communities as they learn from us This book offers in depth case studies of what happened in eight diverse c munities that took up our invitation In them we see a wide array of strategies and approaches that on the surface seem to have little coherence But as Nakkula and colleagues found underlying each of these distinct efforts was a deep commitment to transforming the social norms of community life to more effectively attend to young people s healthy development throughout

the rst two decades of life There have been many ambitious efforts aimed at comprehensive community change on behalf of young people
