City of darkness revisited ,2014 **City of Darkness Revisited** Greg Girard,2014 **City of Darkness** Greg Girard,Ian Lambot,Charles Goddard,1993 A photographic record of Kowloon Walled City a city within a city now demolished and its 35 000 inhabitants rehoused Containing interviews and commentary the book tells the city s history and how the self sufficient community lived and worked in so little space in such apparent harmony Growing Compact Joo Hwa P. Bay,Steffen Lehmann,2017-07-06 Growing Compact Urban Form Density and Sustainability explores and unravels the phenomena links and benefits between density compactness and the sustainability of cities It looks at the socio climatic implications of density and takes a more holistic approach to sustainable urbanism by understanding the correlations between the social economic and environmental dimensions of the city and the challenges and opportunities with density The book presents contributions from internationally well known scholars thinkers and practitioners whose theoretical and practical works address city planning urban and architectural design for density and sustainability at various levels including challenges in building resilience against climate change and natural disasters capacity and integration for growth and adaptability ageing community and security vegetation food production compact resource systems and regeneration

Dreams + Disillusions CJ Lim,Luke Angers,2024-04-25 Dreams Disillusions explores the plethora of ideas and ideologies that have shaped and reshaped cities in profound ways However unlike a conventional title on the history of urbanism and architecture its research fluctuates between the world of concrete reality and the multiple universes that exist in lucid prose poetic visions and the outrageous imaginations of history s greatest and most in famous minds In their thoughts are the foundations for political trends and new civilisations alternative mappings and unlikely phenomena The six chapters reveal dreams that were fundamental to the origin of great cities underpinning the stories of the many lives within and how through circumstance or manipulation fortunate coincidence or planned perfection desires are sometimes left defeated and disillusioned Myth and belief Tradition and logic Revolution and marginalisation Ignorance and hubris Sins and excess Seasons and climate Continuously interacting shifting to enlighten and to enrage these themes combine critical thinking with deep rooted influences and new agencies that are a true sign of the times The 18 illustrated speculations provide an abundance of curious imaginings diverse provocations and satirical criticism While there are distinctions between dreams and disillusion could virtues be made of sins or sensitivity be borne from hubris Could progress advocate tradition or should we re attempt revolutions formerly experienced as disillusionments Whether by bold gestures or by subtle attrition cities are continually re written crucibles for the human condition In this book we develop a better understanding of the discourse of cities tailored to the determining factors of climate resources and humanity s idiosyncrasies to address a world in crisis **Outlaws and Spies** Conor McCarthy,2020-03-18 Conor McCarthy shows how outlaw literature and espionage literature critique the use of legal exclusion as a means of supporting state power Texts discussed range from the medieval

Robin Hood ballads Shakespeare's history plays and the Ned Kelly story to John le Carr Don DeLillo Ciaran Carson and William Gibson

The Sustainable Tall Building Philip Oldfield, 2019-03-27 The Sustainable Tall Building A Design Primer is an accessible and highly illustrated guide which primes those involved in the design and research of tall buildings to dramatically improve their performance Using a mixture of original research and analysis best practice design thinking and a detailed look at exemplar case studies author Philip Oldfield takes the reader through the architectural ideas engineering strategies and cutting edge technologies that are available to the tall building design team The book takes a global perspective examining high rise design in different climates cultures and contexts It considers common functions such as high rise housing and offices to more radical designs such as vertical farming and vertical cemeteries Innovation is provided by examining not only the environmental performance of tall buildings but also their social sustainability guiding the reader through strategies to create successful communities at height The book starts by critically appraising the sustainability of tall building architecture past and present before demonstrating innovative ways for future tall buildings to be designed These include themes such as climatically responsive architecture siting a tall building in the city zero carbon towers skygardens and community spaces at height sustainable structural systems and novel facades In doing so the book provides essential reading for architects engineers consultants developers researchers and students engaged with sustainable design and high rise architecture

An Architecture of Care in South Africa Nicholas Coetzer, 2023-07-10 Architects care It is foundational and germane to the discipline and practice of architecture This book charts the way the Arts and Crafts Movement established the moral ethos of an architecture of care that not only remains embedded in current discourse and practice but also that is being given a more vocal presence in our climate crisis and social justice world By way of genealogical strands the book charts the origin of architecture of care ideas in the Arts and Crafts Movement and their impact on the other progeny architectural projects in South Africa over the past hundred years These range from the translation of inglenooks into an armature architecture of Dignified Places in Cape Town's townships to the ethos of upliftment and care that translates from Octavia Hill through to correcting building regulations and eventually finding a less moralising and more transformative impact in the Hostels to Homes project The birth of design through context and climate in the Arts and Crafts Movement is demonstrated by the shift in South African houses from boxy cottages to solar and nature oriented ribbon plans as demonstrated through the work of Helmut Stauch and Norman Eaton The dislocation of Arts and Crafts ideas to the Cape also demonstrated a limit to the valorising of vernacular architecture and its against globalization building materials whereby English architects promoted Cape Dutch settler architecture and denigrated African vernacular architecture As a final genealogical strand the book demonstrates the coherence of moral instrumentality with the animism and affects potential of handmade buildings Written for academics students and researchers interested in architectural history it is an eye opening investigation into the role of architecture in society
