Corruption And Organized Crime In Europe Illegal Partnerships Organizational Crime:

Corruption and Organized Crime in Europe Philip Gounev, Vincenzo Ruggiero, 2012 In *Corruption and Organised Crime in Europe* Gounev and Ruggiero present a discussion of the relation between organized criminals and corruption in the EU's 27 Member States. The book draws on research and scholarly work the editors carried out respectively within the Center for the Study of Democracy CSD in Bulgaria and within academic institutions as well as on behalf of the European Commission and the United Nations. Combining empirical data and theoretical debates, the book focuses on three main areas of the relationship between corruption and organised crime: public bodies, the private sector and criminal markets. It presents the findings of a recent research project carried out by the CSD on behalf of the European Commission, providing an analysis of the specific national contexts in which corruption and organized crime thrive. The essays also address institutional responses and policies, focusing particularly on how EU Member States attempt to sever the links between the official economy, the political sphere and organized crime. The second part of the book presents case studies written by some of the foremost international experts on the subject, analysing corrupt exchange and criminal organisations concentrating on specific European countries: Bulgaria, France, Greece, Italy, Russia, Spain and the UK. As the first comprehensive study of corruption and organised crime in the countries of the European Union, the book will be a valuable resource for students and scholars of criminology, sociology, law and international politics, as well as policy makers and law enforcement agencies.

Organized Crime Klaus von Lampe, 2015-07-16 *Organized Crime: Analyzing Illegal Activities, Criminal Structures and Extra-legal Governance* provides a systematic overview of the processes and structures commonly labeled organized crime, drawing on the pertinent empirical and theoretical literature primarily from North America, Europe and Australia. The main emphasis is placed on a comprehensive classificatory scheme that highlights underlying patterns and dynamics rather than particular historical manifestations of organized crime. Esteemed author Klaus von Lampe strategically breaks the book down into three key dimensions: 1. illegal activities, 2. patterns of interpersonal relations that are directly or indirectly supporting these illegal activities, and 3. overarching illegal power structures that regulate and control these illegal activities and also extend their influence into the legal spheres of society. Within this framework, numerous case studies and topical issues from a variety of countries illustrate the meaningful application of the conceptual and theoretical discussion. *A Sociotheological Approach to Catholic Social Teaching* Vivencio O. Ballano, 2022-10-31 This book introduces Catholic social teaching (CST) and its teaching on the common good to the reader and applies them in the realm of public health to critically analyze the major global issues of COVID-19 that undermine public interest. It uses the sociotheological approach that combines the moral principles of CST and the holistic analysis of modern sociology and also utilizes the secondary literature as the main source of textual data. Specifically, it investigates the corporate moral irresponsibility and some unethical business practices of Big Pharma in the sale and distribution of its anti-COVID vaccines and medicines, the injustice in the inequitable global vaccine

distribution the weakening of the United States Congress's legislative regulation against the pharmaceutical industry's overpricing and profiteering the inadequacy of the World Health Organization's WHO law enforcement system against corruption and the lack of social monitoring in the current public health surveillance system to safeguard the public good from corporate fraud and white collar crime This book highlights the contribution of sociology in providing the empirical foundation of CST's moral analysis and in crafting appropriate Catholic social action during the pandemic It is hoped that through this book secular scholars social scientists religious leaders moral theologians religious educators and Catholic lay leaders would be more appreciative of the sociotheological approach to understanding religion and COVID 19 This book brings into dialogue two bodies of literature documents of Catholic social teaching and modern sociology and its core thinkers and texts The author does especially well to describe how taking the sociotheological turn will benefit the credibility and dissemination of Catholic social thought Rev Fr Thomas Massaro S J Professor of Moral Theology Jesuit School of Theology Santa Clara University Berkeley California

Corruption, Fraud, Organized Crime, and the Shadow Economy Maximilian Edelbacher, Peter C. Kratcoski, Bojan Dobovsek, 2015-10-15 Fueled by corruption fraud and organized crime the shadow economy also known as the informal black market illegal or underground economy is currently on the rise worldwide Corruption Fraud Organized Crime and the Shadow Economy addresses shadow economies and the players involved by examining various aspects of criminal law and prosecution

Rethinking Organised Crime Leslie Holmes, 2024-05-02 A complex phenomenon which has undergone significant changes in the past forty years Leslie Holmes argues that organised crime is in need of re conceptualisation This innovative book navigates the evolution of this issue to grasp its full scope in the twenty first century

Corruption in the Global Era Lorenzo Pasculli, Nicholas Ryder, 2019-03-05 Corruption is a globalising phenomenon Not only is it rapidly expanding globally but more significantly its causes its means and forms of perpetration and its effects are more and more rooted in the many developments of globalisation The Panama Papers the FIFA scandals and the Petrobras case in Brazil are just a few examples of the rapid and alarming globalisation of corrupt practices in recent years The lack of empirical evidence on corrupt schemes and a still imperfect dialogue between different disciplinary areas and between academic and practitioners hinder our knowledge of corruption as a global phenomenon and slow down the adoption of appropriate policy responses Corruption in the Global Era seeks to establish an interdisciplinary dialogue between theory and practice and between different disciplines and to provide a better understanding of the multifaceted aspects of corruption as a global phenomenon This book gathers top experts across various fields of both the academic and the professional world including criminology economics finance journalism law legal ethics and philosophy of law to analyze the causes and the forms of manifestation of corruption in the global context and in various sectors sports health care finance the press etc from the most disparate perspectives The theoretical frameworks elaborated by academics are here complemented by precious insider accounts on corruption in different areas such as

banking and finance and the press The expanding links between corrupt practices and other global crimes such as money laundering fraud and human trafficking are also explored This book is an important resource to researchers academics and students in the fields of law criminology sociology economics and ethics as well as professionals particularly solicitors barristers businessmen and public servants *Understanding Mafia Networks* Roberto Musotto, 2022-07-15 The Sicilian Mafia is the most famous criminal organisation in the world While its own code of honour rustic chivalry and violence methods have been adopted by other illicit groups very little is known about how the Mafia Cosa Nostra is actually organised and embedded in its territory Who runs the day to day operations What does it take for a Mafioso to raise the ranks and become a boss How can the organisation protect itself and re group after arrests This book explores for the first time the structure of this criminal organisation through the lens of spatial and social network analysis and answers these questions This is done by looking at the relationships of 176 members of the organisation that have been recently involved in building the Cupola the highest ruling and judicial body in the organisation Starting from the arrest warrant that uncovered this criminal restructuring a method and several alternatives are offered explained and commented on how to analyse and visualise criminal networks The book confirms the assumption that the Sicilian Mafia is a criminal organisation that is deeply rooted in its territory Mafiosi live work and interact only in the remit of their own neighbourhood Bosses are evasive even to their own affiliates and mid level members are in charge of keeping the whole network operational This book is particularly useful to students researchers and law enforcement agencies that look at new ways to understand and disrupt the operations and structure of criminal organisations around the world *The Routledge Handbook of Anti-Corruption Research and Practice* Joseph Pozsgai-Alvarez, Roxana Bratu, 2025-06-30 The Routledge Handbook of Anti Corruption Research and Practice takes a multidisciplinary and multidimensional approach to provide a comprehensive exploration of the processes conditions and activities that hold the potential to control corruption Building on existing knowledge gathered from a variety of social science sources it strives to provide analytical emancipation of and coherence to anti corruption studies Anti corruption transcends the traditional boundaries of state actors involving individual and organizational business actors civil society groups members of the media accounting and legal professions as well as sports associations and other non traditional actors This handbook adopts a holistic approach to reflect the rich nature of the manifestations of anti corruption past and present and the possible shapes it may still take in the future This handbook is a key reference for scholars students and practitioners engaged in the study and practice of anti corruption corruption democracy public administration comparative politics as well as more broadly to the wider social sciences Chapter 2 and Chapter 46 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Corruption in Commercial Enterprise** Liz Campbell, Nicholas Lord, 2018-04-17 This edited collection analyses from multiple disciplinary perspectives the issue of corruption in commercial enterprise across different

sectors and jurisdictions Corruption is commonly recognised as a major social bad and is seriously harmful to society in terms of the functioning and legitimacy of political economic systems and the day to day lives of individuals There is nothing novel about bribes in brown envelopes and dubious backroom deals ostensibly to grease the wheels of business Corrupt practices like these go to the very heart of illicit transacting in both legal markets such as kickbacks to facilitate contracts in international commerce and illegal markets such as payoffs to public officials to turn a blind eye to cross border smuggling Aside from the apparent pervasiveness and longevity of corruption in commercial enterprise there is now renewed policy and operational attention on the phenomenon prompting and meriting deeper analysis Corruption in commercial enterprise encompassing behaviours often associated with corporate and white collar crime and corruption in criminal commercial enterprise where we see corruption central to organised crime activities are major public policy issues This collection gives us insight into their nature organisation and governance and how to respond most appropriately and effectively

Bulgaria's Democratic Institutions at Thirty Kjell Engelbrekt, Petia Kostadinova, 2020-05-21 Thirty years after Bulgaria's democratic breakthrough this book provides a balance sheet of the country's democratic institutions through a number of interdisciplinary contributions The volume is organized around three themes democratic institutions civil society and European Union EU processes and examines such topics such as voting political parties populism media civil society organizations identity and the rule of law While the contributors argue that Bulgaria's democracy is successful in terms of the procedural norms of democracy civic participation and compliance with EU rules they also identify serious problem areas Bulgaria's democratic institutions struggle with obstacles such as populist Euroscepticism political elitism corruption and a lack of political accountability though this volume fully acknowledges the historical development of Bulgarian democracy including its achievements and continuing setbacks
