seems to be one of the best strategies to optimize IT assets in an economic context dominated by information innovation and the race for performance. The multiplication of internal and external data and increased digital management collaboration and sharing platforms exposes organizations to ever growing risks. Understanding the threats, assessing the risks, adapting the organization, selecting and implementing the appropriate controls, and implementing a management system are the activities required to establish proactive security governance that will provide management and customers the assurance of an effective mechanism to manage risks.

IT Governance and Information Security Guides, Standards and Frameworks is a fundamental resource to discover IT governance and information security. This book focuses on the guides, standards and maturity frameworks for adopting an efficient IT governance and information security strategy in the organization. It describes numerous case studies from an international perspective and brings together industry standards and research from scientific databases. In this way, this book clearly illustrates the issues, problems and trends related to the topic while promoting the international perspectives of readers. This book offers comprehensive coverage of the essential topics including IT governance guides and practices, IT service management as a key pillar for IT governance, Cloud computing as a key pillar for Agile IT governance, Information security governance and maturity frameworks. In this new book, the authors share their experience to help you navigate today's dangerous information security terrain and take proactive steps to measure your company's IT governance and information security maturity and prepare your organization to survive, thrive and keep your data safe. It aspires to provide a relevant reference for executive managers, CISOs, cybersecurity professionals, engineers and researchers interested in exploring and implementing efficient IT governance and information security strategies.

Human Benefit through the Diffusion of Information Systems Design Science Research Jan Pries-Heje, John J. Venable, Deborah Bunker, Nancy Russo, Janice DeGross, 2010-03-04. This book constitutes the proceedings of the 2010 Joint International Working Conference of the International Federation for Information Processing Working Groups 8.2 and 8.6. Both working groups are part of IFIP Technical Committee 8, the technical committee addressing the field of Information Systems. IFIP WG 8.2, the Interrelation of Information Systems and Organizations, was established in 1977. IFIP WG 8.6, Diffusion, Transfer and Implementation of Information Technology, was established in 1994. In accordance with their respective themes, both IFIP WG 8.2 and IFIP WG 8.6 have long had an interest in the human impact of information systems. In December 1998, they held a joint working conference in Helsinki, Finland, on the theme Information Systems: Current Issues and Future Challenges. The two working groups' joint interest in and collaboration on research concerning the human side of IS is continued and extended through this joint working conference held on the campus of Curtin University of Technology from March 30 to April 1, 2010, in Perth, Western Australia. This conference, Human Benefit Through the Diffusion of Information Systems Design Science Research, combines the traditional themes of the two working groups with the growing interest within the IS research field in the area of design science research.
