Cormac McCarthy's Neoliberalism Brian James Schill, 2025-04-10 In *Cormac McCarthy's Neoliberalism Breakdown in Mercantile Ethics* editor Brian James Schill gathers insightful essays that probe how McCarthy's works have commented on and caricatured the economic political and cultural forces of neoliberalism Spanning McCarthy's career from *Suttree* to his final novels *The Passenger* and *Stella Maris* this volume positions McCarthy as both a chronicler of and a participant in the neoliberal era The contributors explore how McCarthy's fictions often set against vast barren landscapes reflect the predatory logic of neoliberal capitalism marked by economic inequality environmental degradation and social upheaval The nine essays presented here argue that McCarthy's critiques go beyond the superficial and delve deeply into the material and cultural conditions shaped by neoliberal governance By examining the commodification and accumulation of wealth both in the settings of his novels and the lives of his characters McCarthy is revealed as both a sharp observer of the social consequences of unchecked capitalist expansion and a participant in that expansion Ultimately Cormac McCarthy's *Neoliberalism* demonstrates how the master's works grapple with the ways in which neoliberalism has reshaped human relationships from the intimate to the institutional while casting a spotlight on those left behind by global economic forces

Religion in Cormac McCarthy's Fiction Manuel Broncano, 2013-11-20 This book addresses the religious scope of Cormac McCarthy's fiction one

of the most controversial issues in studies of his work Current criticism is divided between those who find a theological dimension in his works and those who reject such an approach on the grounds that the nihilist discourse characteristic of his narrative is incompatible with any religious message McCarthy's tendencies toward religious themes have become increasingly more acute revealing that McCarthy has adopted the biblical language and rhetoric to compose an apocryphal narrative of the American Southwest while exploring the human innate tendency to evil in the line of Herman Melville and William Faulkner both literary progenitors of the writer Broncano argues that this apocryphal narrative is written against the background of the Bible a peculiar Pentateuch in which Blood Meridian functions as the Book of Genesis the Border Trilogy functions as the Gospels and No Country for Old Men as the Book of Revelation while The Road is the post apocalyptic sequel This book analyzes the novels included in what Broncano defines as the South Western cycle from Blood Meridian to The Road in search of the religious foundations that support the narrative architecture of the texts **Cormac McCarthy's**
