Digital Storytelling, Mediatized Stories Knut Lundby, 2008 Recent years have seen amateur personal stories focusing on me flourish on social networking sites and in digital storytelling workshops The resulting digital stories could be called mediatized stories This book deals with these self representational stories aiming to understand the transformations in the age old practice of storytelling that have become possible with the new digital media Its approach is interdisciplinary exploring how the mediation or mediatization processes of digital storytelling can be grasped and offering a sociological perspective of media studies and a socio cultural take of the educational sciences Aesthetic and literary perspectives on narration as well as questioning from an informatics perspective are also included *Mediatization of Physical Activity* Katarzyna Kopecka-Piech, 2019-02-25 This book demonstrates how media technologies shape amateur sports and how some of these sports are modified The author uses an innovative measuring approach to analyze how people use media technologies in conjunction with sports and how their relationship with physical activity is affected by the ever present influence of the media The research used includes a meta theoretical analysis of the current mediatization theory as well as quantitative and qualitative empirical research The author integrates these aspects into the new concept of media saturation supplementing the current theory and contributing to the wider body of knowledge in the field of media and physical activity The book analyzes different perspectives in an interdisciplinary examination ranging from media and sport researchers to scholars in culture studies sociology and psychology **From Twitter to Tahrir Square** Bala A.
