Read the Bible like a Mystic Carl McColman, 2025-06-10 There is a better way to read the Bible with the eyes of a mystic and the heart of contemplation Can the Bible be saved More and more Christians are troubled by how difficult passages in the Bible can be used to promote sexism homophobia hostility to other faiths and other problems but a sterile academic reading of the sacred text seems spiritually unfulfilling Carl McColman author of *The New Big Book of Christian Mysticism* reminds us that there is an ancient third way of approaching the Bible reading scripture like a mystic This contemplative approach to the Bible understands that much of the sacred text was never meant to be taken literally yet this approach maintains that spiritual wisdom guidance in prayer and encouragement for meditation are encoded throughout the sacred text *Read the Bible like a Mystic* will help Christians find an expanded relationship with their sacred textbook and it will also invite all people Christian and non Christian alike to bring together the wisdom of the written word with the wisdom of the contemplative life and the call to foster peace justice and equality in our world Whether you come to the Bible from a preexisting interest in Christianity or mysticism this book shows how contemplative wisdom unlocks the liberating power of the Word for our time

The Big Book of Christian Mysticism Carl McColman, 2021-11-16 In popular usage mysticism typically refers to New Age or Eastern forms of spirituality However the mystical tradition is also an important component of the Christian tradition At its heart and much like its expression in other faith traditions Christian mysticism is an ancient practice that incorporates meditation contemplation worship philosophy the quest for personal enlightenment and the experience of Divine presence This volume is a comprehensive introduction and guide to Christian mysticism It is a big book about a big possibility the hope of achieving real blissful experiential unison with God Among the topics covered here are a general introduction to mysticism the Bible and mysticism the history and types of Christian mysticism biographical sketches of leading Christian mystics and practical instructions about practicing mysticism today This is a breathtaking work that explores a form of spirituality that has changed lives over the course of 2 000 years Learning about Christian mysticism and how it has been articulated through the centuries will prove inspirational for today's seekers regardless of the faith tradition The mystic is not a special kind of person every person is a special kind of mytic William McNamara , *Psychoanalysis, Mysticism and the Problem of Epistemology* Alice Barnes, 2021-09-09 This book presents key psychoanalytic theories from a fresh perspective that of the mystical element The author explores the depth structure of central assumptions in psychoanalytic theory to uncover the mystical core of conventional analytic thinking Exploring authors from Freud and Ferenczi through Bion and Winnicott to contemporary voices such as Ogden Bollas and Eigen the book shows that psychoanalysis has always operated on the assumption of psychic overlap a soul to soul contact between patient and analyst Surprisingly the book shows how this magical facet goes hand in

hand with a pragmatic worldview that explores the epistemological complexities of psychoanalysis in search of a way to join the subjective even the mystical with the practical aim of serving as a validated mental health discipline This is accomplished through an interdisciplinary and intertextual encounter between psychoanalysis and the innovative pairing of William James pragmatic philosophy and Martin Buber s dialogic thought The author s paradoxical stance surrounding the nature and role of psychoanalysis and its mystical facet resonate the great challenge embedded in Winnicott s insistence on tolerating paradox and Bion s demand to respect all parts of the psychoanalytic truth in this case the practical and mundane alongside the mystical and magical The book s broad interdisciplinary outlook will captivate both psychoanalysts and psychoanalytic therapists as well as scholars of philosophy
