FOREWORD

The procedures and special tools shown in this Blue Ribbon Service Manual are for use by International Harvester dealers and their factory trained technicians.

The specifications as listed in this manual are correct as of the printing date. Due to changes and improvements in our products, dealers are periodically issued service bulletins to keep the manual up-to-date. We suggest you refer to the most recent information when performing service work on this equipment.

International Harvester Factory Trained technicians are best qualified to service I.H. equipment.

INTRODUCTION

The purpose of this manual is to provide technicians with the necessary information regarding removal, and field adjustments for the C.A. V. (D.P.A. type) Fuel Injection Pump and Nozzle Service.

The "Principles of Operation" portion of the manual has been prepared to facilitate technicians with the general function of the pump with specific detailed information covering the components which are affected by field adjustments.

Caution must be emphasized when performing service on any part of the diesel fuel system. Completely clean the injection pump and the surrounding area as the source before performing any service work.
