Analyzing the Impacts of Industry 4.0 in Modern Business Environments Brunet-Thornton, Richard, Martinez, Felipe, 2018-05-04 In order to improve competitiveness and performance corporations must embrace advancements in digitalization Successful implementation of knowledge management is a huge factor in corporate success Analyzing the Impacts of Industry 4.0 in Modern Business Environments is a critical scholarly publication that explores digital transformation in business environments and the requirement for not only a substantial management change plan but equally the two essential components of knowledge management knowledge sharing and knowledge transfer Featuring a broad range of topics such as strategic planning knowledge transfer and cybersecurity risk management this book is geared toward researchers academicians and students seeking current and relevant research on organizational knowledge intensity and monitoring of knowledge management development Transdisciplinary Engineering Methods for Social Innovation of Industry 4.0 M. Peruzzini, M. Pellicciari, C. Bil, 2018-09-14 The concept of concurrent engineering CE was first developed in the 1980s Now often referred to as transdisciplinary engineering it is based on the idea that different phases of a product life cycle should be conducted concurrently and initiated as early as possible within the Product Creation Process PCP The main goal of CE is to increase the efficiency and effectiveness of the PCP and reduce errors in later phases as well as incorporating considerations including environmental implications for the full lifecycle of the product It has become a substantive methodology in many industries and has also been adopted in the development of new services and service support This book presents the proceedings of the 25th ISPE Inc International Conference on Transdisciplinary Engineering held in Modena Italy in July 2018 This international conference attracts researchers industry experts students and government representatives interested in recent transdisciplinary engineering research advancements and applications

The book contains 120 peer reviewed papers selected from 259 submissions from all continents of the world ranging from the theoretical and conceptual to papers addressing industrial best practice and is divided into 11 sections reflecting the themes addressed in the conference program and addressing topics as diverse as industry 4.0 and smart manufacturing human centered design modeling simulation and virtual design and knowledge and data management among others With an overview of the latest research results product creation processes and related methodologies this book will be of interest to researchers design practitioners and educators alike

Industry and Higher Education Leigh Wood, Lay Peng

Tan, Yvonne A. Breyer, Sally Hawse, 2020-01-15 This book is aimed at business schools around the globe We offer rich case studies teaching notes and assessment ideas to help business educators embed sustainability in curriculum These international case studies are situated in Mauritius Malaysia Indonesia Australia and India however they have global applicability Each chapter is a joint creation with an industry or government partner and uses original research written in the form of a case study Active learning through case studies opens opportunities to change attitudes and to find creative solutions In this book we present ten chapters written as case studies covering a diverse number of sustainability topics from tourism health care human resource management climate change and supply chain management Each case study is accompanied by detailed teaching notes and assessment questions as well as marking guides There are also two chapters discussing sustainability discourse and discipline in higher education The detailed cases can be immediately applied in the classroom

The Routledge Companion to Global Value Chains Renu Agarwal, Christopher Bajada, Roy Green, Katrina Skellern, 2021-09-30 This Companion provides a review of global value chains GVCs and the megatrends that are shaping them and will continue to reshape them in deep set trajectories of change over the next few decades Megatrends herald both challenges and opportunities With the growing interest among business leaders and researchers in GVCs this is a reference work which fills a gap in current literature by focusing on the new features of GVCs including the shift of global purchasing power towards developing economies the significance of emerging technologies and data analytics the increasing tensions between globalisation and de globalisation and the role of micro multinationals start up entrepreneurs the public sector and middle markets in a fast changing global economy The early chapters are essentially intradisciplinary in character with the first seeking to explore some historical aspects of GVCs Subsequent chapters cover the theory and practice of operations and supply chain management emerging supply chain technologies and the impact of inter firm collaboration across sectors and economies The final chapters take a more interdisciplinary approach and examine topics at the interface of GVCs with the economy society culture and politics This comprehensive handbook provides a timely analysis of leading edge global megatrends and practices in one volume
