

Backlight Precautions

- The backlight uses an EL (electro-luminescent) panel that causes the entire display to glow for easy reading in the dark.
- In any mode, press (L) to illuminate the display for about two seconds.
 - The electro-luminescent panel that provides illumination loses power after very long use.
 - The illumination provided by the backlight may be hard to see when viewed under direct sunlight.
 - The watch may emit an audible sound whenever the display is illuminated. This is due to vibration of the EL panel used for illumination, and does not indicate malfunction.
 - The backlight turns off automatically whenever an alarm sounds.
 - Frequent use of the backlight shortens the battery life.
