Specters of Cavafy Maria Boletsi, 2024-07-02 The Greek Alexandrian poet C P Cavafy 1863-1933 has been recognized as a central figure in European modernism and world literature His poetry explored the conditions for animating the past and making lost worlds or people haunt the present Yet he also described himself as a poet of the future generations Indeed his writings address concerns and desires that permeate the twentieth and twenty-first centuries How does poetry concerned with the past memory loss and death carry futurity How does it haunt and how is it haunted by future presents *Specters of Cavafy* broaches these questions by proposing spectral poetics as a novel approach to Cavafy's work Drawing from theorizations of specters and haunting it develops spectrality as a lens for revisiting Cavafy's poetry and prose fiction and nonfiction as well as his poetry's bearing on our present By examining Cavafy's spectral poetics the book's first part shows how conjurations work in his writings and how the spectral permeates the entanglement of modernity and haunting and of irony and affect The second part traces the afterlives of specific poems in the Western imagination since the 1990s in Egypt's history of debt and colonization and in Greece during the country's recent debt crisis Beyond its original contribution to Cavafy studies the book proposes tools and modes of reading that are broadly applicable in literary and cultural studies

Ruble, 2023-11-01 In 1900 German legislators passed the Civil Code a controversial law that designated women as second class citizens with regard to marriage parental rights and marital property Despite the upheavals in early twentieth century Germany the fall of the German Empire after the First World War the tumultuous Weimar Republic and the destructive Third Reich the Civil Code remained the law of the land After Nazi Germany's defeat in 1945 and the founding of East and West Germany legislators in both states finally replaced the old law with new versions that expanded women's rights in marriage and the family *Entangled Emancipation* reveals how the complex relationship between the divided Germanys in the early Cold War catalysed but sometimes blocked efforts to reshape legal understandings of gender and the family after decades of inequality Using methods drawn from gender history and discourse analysis the book restores the history of the women's movements in East and West Germany *Entangled Emancipation* ultimately explores the parallel processes through which East and West Germany reimagined negotiated and created new civil laws governing women's rights after the Second World War *A Modern History of European Cities* Rosemary Wakeman, 2020-01-23 Rosemary Wakeman's original survey text

comprehensively explores modern European urban history from 1815 to the present day It provides a journey to cities and towns across the continent in search of the patterns of development that have shaped the urban landscape as indelibly European The focus is on the built environment the social and cultural transformations that mark the patterns of continuity and change and the transition to modern urban society Including over 60 images that serve to illuminate the analysis the book examines whether there is a European city and if so what are its characteristics Wakeman offers an interdisciplinary approach that incorporates concepts from cultural and postcolonial studies as well as urban geography and provides full coverage of urban society not only in western Europe but also in eastern and southern Europe using various cities and city types to inform the discussion The book provides detailed coverage of the often neglected urbanization post 1945 which allows us to more clearly understand the modernizing arc Europe has followed over the last two centuries **Antonio**

Gramsci: A Pedagogy to Change the World Nicola Pizzolato, John D. Holst, 2017-06-12 This volume provides evidence for the argument of a central place of pedagogy in the interpretation of Gramsci's political theory Gramsci's view that every relationship of hegemony is necessarily a pedagogical relationship makes it imperative to dismiss narrow and formal interpretations of his educational theories as applying to schooling only This book argues that what is required rather is an inquiry into the Italian thinker's broad conceptualisation of pedagogy which he thought of as a quintessential political activity central to understanding and transforming society Preceded by a broad introduction that positions Gramsci in his context and in the literature the essays in this book critically revisit the many passages of the Prison Notebooks and pre prison writings where Gramsci addresses the nexus between politics and pedagogy Some essays apply those concepts to specific contexts The book for the first time brings to the attention of an English speaking audience voices from the current historiography in

Italy and Latin America We are forced at regular intervals to consider how Gramsci might still be useful in particular national territories in an international context How can we carry on with pessimism of the intelligence but find some basis for optimism of the will From the foreword of Anne Showstack Sassoon Visiting Professor of Politics at the Department of Politics at Birbeck University of London **Innovation and Creativity in Late Medieval and Early Modern European Cities**

Karel Davids, Bert De Munck, 2016-05-23 Late medieval and early modern cities are often depicted as cradles of artistic creativity and hotbeds of new material culture Cities in renaissance Italy and in seventeenth and eighteenth century northwestern Europe are the most obvious cases in point But how did this come about Why did cities rather than rural environments produce new artistic genres new products and new techniques How did pre industrial cities evolve into centres of innovation and creativity As the most urbanized regions of continental Europe in this period Italy and the Low Countries provide a rich source of case studies as the contributors to this volume demonstrate They set out to examine the relationship between institutional arrangements and regulatory mechanisms such as citizenship and guild rules and innovation and creativity in late medieval and early modern cities They analyze whether in what context and why regulation or deregulation influenced innovation and creativity and what the impact was of long term changes in the political and economic sphere
