Cases, Problems, and Materials on Contracts Thomas D. Crandall, Douglas J. Whaley, 2012 *Cases Problems and Materials on Contracts* is distinguished among other texts by its excellent organization and thorough coverage of the basic themes of contract law. The accessible straightforward text begins with clear introductions to each section or concept. Carefully selected the cases have been tightly edited for best effect. Using a problem oriented approach short well conceived hypotheticals engage the students. A well received and flexible organization starts with Offer and Acceptance and moves to Consideration however the book is designed so courses can easily start with Consideration or Remedies. Its flexibility allows for use in courses in which professors are required to teach sales and also can be adapted to avoid teaching the UCC. A manageable length accounts for the book being used in courses of 4, 5 and 6 hour length. The authors have worked closely on all chapters to deliver a seamless revision to this popular text. The Sixth Edition has been updated with recent cases as the authors combed through hundreds to select the best.
