The Ecology of Violent Extremism Lisa Schirch, 2018-08-23 The Ecology of Violent Extremism brings together leading theorists and practitioners to describe an ecological or systems approach to violent extremism. Nothing can be fixed until it is understood. News media keep us alarmed to the close up devastation of acts of terrorism. This book climbs a ladder to get a better view of the problem. What is beneath and beyond violent extremism? How do we respond to the problem of violent extremism in ways that do not fertilize the root causes that fueled it in the first place? While many books offer one or two hypotheses for preventing terrorism, this book gives readers the tools to look at the problem from many different angles. The book offers a map of violent extremism, drawing connections between twenty-five factors that correlate with violent extremism. VE On a spectrum, counterterrorism seeks to disrupt, detain, and destroy terrorist plans and networks. CVE seeks to prevent and counter the belief systems that support violent extremism. Peacebuilding addresses the longer-term factors and root causes driving VE. An ecological approach to VE recognizes that interventions also interact with each other. For example, some approaches to counterterrorism also motivate further recruitment to VE groups and undermine peacebuilding interventions. Readers finish the book recognizing the debates within the very definition of violent extremism and understanding a broader paradigm for how we understand and respond to violent extremist beliefs and acts of terror.

Hearing Health Care for Adults National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Committee on Accessible and Affordable Hearing Health Care for Adults, 2016-09-06 The loss of hearing, be it gradual or acute, mild or severe, present since birth or acquired in older age, can have significant effects on one's communication abilities, quality of life, social participation, and health. Despite this, many people with hearing loss do not seek or receive hearing health care. The reasons are numerous, complex, and often interconnected. For some, hearing health care is not affordable. For others, the appropriate services are difficult to access, or individuals do not know how or where to access them. Others may not want to deal with the stigma that they and society may associate with needing hearing health care and obtaining that care. Still others do not recognize they need hearing health care, as hearing loss is an invisible health condition that often worsens gradually over time. In the United States, an estimated 30 million individuals, 12.7 percent of Americans ages 12 years or older, have hearing loss. Globally, hearing loss has been identified as the fifth leading cause of years lived with disability. Successful hearing health care enables individuals with hearing loss to have the freedom to communicate in their environments in ways that are culturally appropriate and that preserve their dignity and function. Hearing Health Care for Adults focuses on improving the accessibility and affordability of hearing health care for adults of all ages. This study examines the hearing health care system with a focus on non-surgical technologies and services and offers recommendations for improving access to the affordability of and the quality of hearing health care for adults of all ages. 2014: The Year of Action Bepty Antoine, 2018-05-24 2014 The Year of Action By Bepty

Antoine 2014 The Year of Action is a broad ranging compendium of the events conflicts and progress recently seen throughout the world Written from the perspective of an immigrant with a particular heart for the poor this unique tome focuses on the influential work of two world leaders United States President Barack Obama and Pope Francis Bepty Antoine utilizes historical and cultural knowledge to frame events within a larger context presenting the actions both men have taken to further social justice issues often connecting these concerns to environmental crises Drawing on the tenants of their Christian faith both the President and the Pope have sought to defend immigrants refugees and the global poor and their efforts often in the face of extreme opposition are carefully detailed and celebrated 2014 The Year of Action focuses on the impressive achievements of two modern heroes and places their struggles for progress within the wider context of current events and popular culture

Who Cares Christopher Howard,2023 The first comprehensive map of the social safety net public and private in the United States Societies are often judged by how they treat their most vulnerable members the poor and near poor In the United States this responsibility belongs not only to governments but also to charities businesses individuals and family members Their combined efforts generate a social safety net In Who Cares Christopher Howard offers the first comprehensive map of the US social safety net He chronicles how different parts of American society talk about poverty related needs And he shows what Americans do to provide basic levels of income food housing medical care and daily care Although the US social safety net is extensive major gaps remain particularly impacting Blacks Hispanics and individuals who are not employed full time Drawing heavily upon evidence from the years right before the Covid 19 pandemic Howard demonstrates that these problems persist even when the economy seems healthy Who Cares concludes with an initial assessment of how the social safety net performed during the pandemic
