James J. Rusthoven, 2014-04-29 Principles based biomedical ethics has been a dominant paradigm for the teaching and practice of biomedical ethics for over three decades Attractive in its conceptual and linguistic simplicity it has also been criticized for its lack of moral content and justification and its lack of attention to relationships This book identifies the modernist and postmodernist worldviews and philosophical roots of principlism that ground the moral minimalism of its common morality premise Building on previous work by prominent Christian bioethicists an alternative covenantal ethical framework is presented in our contemporary context Relationships constitute the core of medicine and understanding the ethical meaning of those relationships is important in providing competent and empathic care While the notion of covenant is articulated through the richness of meaning taught in the Christian Scriptures covenantal commitment is also appreciated in Islamic Jewish and even pagan traditions as well In a world of increasing medical knowledge and consequent complexity of care such commitment can help to resist enticements toward the pursuit of self interest It can also improve relationships among caregivers each of whose specific expertise must be woven into a matrix of care that constitutes optimal medical practice for each vulnerable and needy patient Kingdom Ethics, 2nd ed. patterns reconstructing the key categories of ethics agency norms authority of Scripture ethical discernment etc and drawing out four practices communicative engagement just peacemaking grassroots organizing and nonviolence The result is a new model of Christian ethics that is inclusive egalitarian ecological and justice and peace oriented which overcomes the limitations of traditional covenantal ethics In the second part of the book Lee systematically applies New Covenant ethics to the most urgent and controversial social issues of our time democratic politics economic ethics creation care criminal justice race sex and marriage medicine and war and peace Through his deep pastoral and irenic inquiries into these difficult topics Lee demonstrates a pattern of covenantal moral reasoning that undercuts the dominant neoliberal ethos of individualism and transactional relationship that more and more influences Christian moral decisions His conclusion is that as covenant has been at the heart of modern democracy human rights civil society and civic formation a renewed understanding of covenant centered in Jesus can help to heal our broken society and imperiled planet and to reorganize the fragmented human life in the era of globalization and digitization
