Adam Geczy, Vicki Karaminas

Clean Clothes A Global Movement To End Sweatshops:

Clean Clothes Liesbeth Sluiter, 2009-10-09 The Clean Clothes Campaign is a worldwide movement that aims to improve the wages and conditions of sweatshop workers This is the story of their struggle Large retailers such as Tesco Walmart and Carrefour lure shoppers in with prices that seem too good to be true This book shows that they re too good to be fair All along the industry s supply chain workers often children are exploited through poverty wages unpaid overtime and harsh anti union measures The campaign urges those in charge of the garment industry s supply lines to protect their workers and treat them fairly This dynamic account of direct engagement by concerned consumers is a must read for those that see globalisation differently and want their shopping choices to support the most vulnerable people involved in the clothing industry

Unmaking the Global Sweatshop Rebecca Prentice, Geert De Neve, 2017-08-25 Unmaking the Global Sweatshop gathers the work of leading anthropologists and ethnographers studying the global garment industry s impact on workers well being and examines the relationship between the politics of labor and initiatives to protect workers health and safety

The End of Fashion Adam Geczy, Vicki Karaminas, 2018-11-01 Attitudes to fashion have changed radically in the twenty first century Dress is increasingly approached as a means of self expression rather than as a signifier of status or profession and designers are increasingly treated as artists as fashion moves towards art and enters the gallery museum and retail space This book is the first to fully explore the causes and implications of this shift examining the impact of technological innovation globalization and the growth of the internet The End of Fashion focuses on the ways in which our understanding of fashion and the fashion system have transformed as mass mediation and digitization continue to broaden the way that contemporary fashion is perceived and consumed Exploring everything from the rise of online shopping to the emergence of bloggers as power elites who have revolutionized the terrain of traditional fashion reportage this volume anatomizes a world in which runway shows now compete with live streaming digital fashion films Instagram and Pinterest Bringing together original cutting edge contributions from leading international scholars this book is essential reading for students and scholars of fashion and cultural studies as well as anyone interested in exploring the dramatic shifts that have shaken the fashion world this century and what they might say about larger changes within an increasingly global and digital society

Power and Space John Allen, 2024-08-05 Power and Space sets out the inherently spatial nature of power today and seeks to change the conversation around how power exercises us in the contemporary moment The essays brought together in this book are a response to the fact that conventional descriptions of power and its ordered geographies no longer chime with our lived experience Spatiality matters to the workings of power nowadays and this book sheds light on what it is that we face when power is exercised through more subtle spatially nuanced arrangements It is divided into three parts each representing a different kind of engagement with power s relationship to space from the spatial shifts in the way power is exercised through to its assemblage like entanglements and in turn its progressive topological character Throughout the

book a wide range of social political and economic examples are drawn upon to illustrate a more provisional sense of power ranging for instance from the seductive logic of privatized public spaces to the attempt by a data analytics company to manipulate political behaviour through to the offshore spaces invented by rising financial elites to challenge the established banking order Illustrating the new found abilities of the powerful to make their presence felt this book provides an accessible account of the practical workings of power in the present day It will be invaluable to students and academics in human geography and urban studies as well as politics sociology and cultural studies The Routledge History of Fashion and Dress, 1800 to the Present Veronique Pouillard, Vincent Dubé-Senéal, 2023-10-24 The time span covered by The Routledge History of Fashion and Dress starts in the nineteenth century with the aftermath of the consumers revolution and reaches all the way to the present The fashion and garment industries have been international from the beginning and as such this volume looks at the history of fashion and dress through the lenses of both international and global history Because fashion is also a multifaceted subject with humanagency at its core at the confluence of thematerial fabrics clothing dyes tools and machines and the immaterial savoir faire identities images and brands this volume adopts a transdisciplinary perspective opening its pages to researchers from a variety of complementary fields The chapters in this volume are organized based on their relationship to five fields of study economics and commerce politics business identities and historical sources Paying particular attention to change the book goes beyond the great fashion capitals and well known fashion centers and points to the broader geographies of fashion Particular geographical areas focus on the emergence of new fashion systems and business models whether they be in Sweden Bangladesh or Spain or on the African continent considered to be the new frontier of the industry Covering myriad aspects of the subject this is the perfect companion for all those interested in history of dress and fashion in the modern world Philosophy, Ethics, and Public Policy: An Introduction Andrew Cohen, 2014-09-15 What makes a policy work What should policies attempt to do and what ought they not do These questions are at the heart of both policy making and ethics Philosophy Ethics and Public Policy An Introduction examines these questions and more Andrew I Cohen uses contemporary examples and controversies mainly drawn from policy in a North American context to illustrate important flashpoints in ethics and public policy such as public policy and globalization sweatshops medicine and the developing world immigration marriage family and education same sex marriage women and the family education and Intelligent Design justifying and responding to state coercion torture reparations and restorative justice the ethics of the body and commodification the human organ trade and factory farming of animals Each chapter illustrates how ethics offers ways of prioritizing some policy alternatives and imagining new ones Reflecting on various themes in globalization markets and privacy the chapters are windows to enduring significant debates about what states may do to shape our behavior Overall the book will help readers understand how ethics can frame policymaking while also suggesting that sometimes the best policy is no policy Including annotated further reading this is an excellent introduction to

a fast growing subject for students in Philosophy Public Policy and related disciplines

Lessons for Social Change in the Global Economy Sky Croeser,Shae Garwood,Christalla Yakinthou,2013-12-16 Discussion questions developed by the authors can be found here In the face of globalization s massive social and economic transformations and the resulting persistent inequality activists labor organizers and advocacy NGOs are seeking and creating change beyond the confines of formal state politics and across national borders Given the breadth of local issues activists face the ways they define the problem and seek redress vary widely This book provides a unique perspective on these efforts gathering into one volume concrete examples of the implementation of different strategies for social change that highlight the challenges involved This provides useful lessons for those involved in social change as well as for those studying it Contributors to the volume are scholars and practitioners around the world and they draw on strong connections with people working in the field to improve working conditions and environmental standards of global production systems This allows readers to develop a more comprehensive and grounded understanding of strategies for social change This book maintains a strong balance between breadth and specificity It provides an overview of the themes of social change which contextualizes and draws common threads from the chapters grounded in specific geographic locations and political spaces of change The chapters analyze environmental and social problems and the varying degrees of success activists have had in regulating industries containing environmental hazards and or harnessing aspects of an industry for positive social and economic change Contributors draw upon different ways of creating change which include corporate social responsibility schemes fair trade regimes and community radio By providing insight into the potential and limitations of actions taken at different levels the book encourages a critical perspective on efforts for social change grounded in an understanding of how conditions around the world can affect these activities

Law, Obligation, Community Daniel Matthews,Scott Veitch,2018-06-27 Against an ever expanding and diversifying rights talk this book re opens the question of obligation from not only legal but also ethical sociological and political perspectives Its premise is that obligation has a primacy ahead of rights because rights attach to practices and modes of being that are already saturated with obligations Obligations thus lie at the core not just of law but of community Yet the distinctive meanings range and situations of obligation have tended to remain under theorised in legal scholarship In response this book examines the sense in which we are multiply bound beings to law and legal institutions as much as we are to place community memory and the various social institutions that give shape to collective life Sharing this set of concerns each of the international group of scholars contributing to this volume traces the specificity of the binding force of obligations their techniques and modes of expression as well as their centrally important role in giving form to lawful relations Together they provide an innovative and challenging contribution to legal scholarship one that will also be of relevance to those working in politics philosophy and social theory

Labour in Global Value Chains in Asia Dev Nathan,Meenu Tewari,Sandip Sarkar,2016-10-13 This book brings together a set of studies on labour conditions in global

value chains GVCs in a variety of sectors ranging from labour intensive sectors garments fresh fruits tourism to medium and high technology sectors automobiles electronics and telecom and knowledge intensive sectors IT software services The studies span a number of countries across Asia Bangladesh Cambodia China India Indonesia Sri Lanka and Vietnam This book stands out for its grounded and detailed examination of both what is working and what is not working as Asian labour gets more embedded in global value chains In trying to identify spaces for progressive action and policies in the current GVC linked global work environment the book goes against the grain in searching for an alternative to laissez faire forms of globalisation

European fashion Regina Lee Blaszczyk, Véronique Pouillard, 2018-02-07 The period since 1945 has been a transformative era for the fashion industry Over the course of seventy years the fashion world has moved from celebrating the craftsmanship of haute couture to revelling in ever changing fast fashion This volume examines the transition from the old system to the new in a series of case studies grouped around three major themes Part I focuses on Paris as a creative hub aiming to understand how the birthplace of haute couture adapted to late twentieth century developments Part II considers the retailer's role in shaping taste responding to consumer expectations and disseminating fashion merchandise Part III looks to alternative visions of the European fashion system that have appeared in unexpected places The volume is highly interdisciplinary covering design history cultural anthropology ethnography management studies and the cultural history of business
