Climate Responsive Architecture By Arvind Krishan:

Climate Responsive Architecture Arvind Krishan, 2001 The architect community is not far behind in this endeavour Climate Responsive Architecture has become a prime issue for architects Since most of the literature in this area is physics oriented it is somewhat difficult for architects to apply these principles to practice The book has been written with a view to make data such as climatic zones temperature zones and other climatic parameters more comprehensible The book is the outcome of a long drawn research in the area of CRA and boasts of international names such as Dr Nick Baker Prof Szokolay Prof Simos Yannas and Dr Jeffrey Cook among others

Air-Conditioning in Modern American Architecture, 1890-1970 Joseph M. Siry, 2021-02-01 Air Conditioning in Modern American Architecture 1890 1970 documents how architects made environmental technologies into resources that helped shape their spatial and formal aesthetic In doing so it sheds important new light on the ways in which mechanical engineering has been assimilated into the culture of architecture as one facet of its broader modernist project Tracing the development and architectural integration of air conditioning from its origins in the late nineteenth century to the advent of the environmental movement in the early 1970s Joseph M Siry shows how the incorporation of mechanical systems into modernism s discourse of functionality profoundly shaped the work of some of the movement s leading architects such as Dankmar Adler Louis Sullivan Frank Lloyd Wright Ludwig Mies van der Rohe Gordon Bunshaft and Louis Kahn For them the modernist ideal of functionality was incompletely realized if it did not wholly assimilate heating cooling ventilating and artificial lighting Bridging the history of technology and the history of architecture Siry discusses air conditioning s technical and social history and provides case studies of buildings by the master architects who brought this technology into the conceptual and formal project of modernism A monumental work by a renowned expert in American modernist architecture this book asks us to see canonical modernist buildings through a mechanical engineering oriented lens It will be especially valuable to scholars and students of architecture modernism the history of technology and American history

Eco-Urbanity Darko Radovic, 2013-12-19 There is need for change in our currently unsustainable cities Carefully outlining paths towards better sustainable ways of urban living this book proposes a radical change in the ways we conceive and live our urban environments Bringing together diverse cultural and disciplinary views on urban sustainability eighteen leading academics and practitioners in sustainable architecture and urbanism explore global concerns of sustainability and urbanity This broad range of issues are clearly articulated and linked to concrete places and projects merging research and cutting edge design investigations to promote environmentally and culturally sensitive urban futures

New Architecture and Urbanism Saswati Chetia, Deependra Prashad, 2010-01-08 This book on New Architecture and Urbanism Development of Indian Traditions builds on the contributions from various architects planners educationists decision makers others from across the world who gathered together to create a forum for the promotion of traditional processes and techniques for the creation of the built environment This forum was initiated by INTBAU India The

International Network for Traditional Building Architecture and Urbanism in India and supported by The Nabha Foundation This book presents the arguments axioms and case studies related to Traditional Architecture and Urbanism in a sequential format Firstly it examines the New ways of looking at Heritage by separating it from pure history into a living and evolving process The book looks at what defines traditional methods and their relevance to the contemporary context It also examines the aspects of Continuity and Contextual frameworks in the built environment The section on Sustainable Buildings Places and Communities explores the many facets of locally driven processes from the viewpoint of tradition and sustainability These include many community based planning methods and their applications in shaping the built environment aspects of environmental sustainability and on how appropriateness could be ingrained into current architectural education Lastly the book delves into a number of executed examples in architecture seeking to learn from tradition and examples in place making urbanism which in turn promotes humane walkable and connected neighbourhoods

The Routledge Companion to Ecological Design Thinking Mitra Kanaani, 2022-08-31 This companion investigates the ways in which designers architects and planners address ecology through the built environment by integrating ecological ideas and ecological thinking into discussions of urbanism society culture and design Exploring the innovation of materials habitats landscapes and infrastructures it furthers novel ecotopian ideas and ways of living including human made settings on water in outer space and in extreme environments and climatic conditions Chapters of this extensive collection on ecotopian design are grouped under five different ecological perspectives design manifestos and ecological theories anthropocentric transformative design concepts design connectivity climatic design and social design Contributors provide plausible sustainable design ideas that promote resiliency health and well being for all living things while taking our changing lifestyles into consideration This volume encourages creative thinking in the face of ongoing environmental damage with a view to making design decisions in the interest of the planet and its inhabitants With contributions from over 79 expert practitioners educators scientists researchers and theoreticians as well as planners architects and engineers from the U S Canada Europe and Asia this book engages theory history technology engineering and science as well as the human aspects of ecotopian design thinking and its implications for the outlook of the planet

The Natural City Stephen B. Scharper, Ingrid Leman-Stefanovic, 2012-01-01 Urban and natural environments are often viewed as entirely separate entities human settlements as the domain of architects and planners and natural areas as untouched wilderness This dichotomy continues to drive decision making in subtle ways but with the mounting pressures of global climate change and declining biodiversity it is no longer viable New technologies are promising to provide renewable energy sources and greener designs but real change will require a deeper shift in values attitudes and perceptions A timely and important collection The Natural

City explores how to integrate the natural environment into healthy urban centres from philosophical religious socio political and planning perspectives Recognizing the need to better link the humanities with public policy The Natural City offers unique insights for the development of an alternative vision of urban life *Sustainable Architecture and Green Building Technologies* Mr. Rohit Manglik,2024-07-28 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels *Culture and Customs of Mali* Dorothea E. Schulz Ph.D.,2012-01-06 Touching on everything from its rich musical heritage to its varied cultural traditions this is a thorough and accessible introduction to the contemporary lives of the different peoples who call Mali their home Rated among the world s ten poorest nations Mali has a glorious past and a less certain present Culture and Customs of Mali touches on the first as background for understanding the second exploring multiple facets of contemporary social life and cultural practices in this landlocked West African nation The book offers an overview of diverse aspects of everyday social cultural and religious life in Mali paying particular attention to regional and ethnic variations It shows how current social conventions and cultural values are the product of a centuries long history while at the same time dispels the common perception that African societies are rooted in unchanging tradition Readers will come away with a better understanding of the multiple ways in which Malians starting from their own customs and cultural foundations integrate themselves into an international economic order and a globalized world of shared media images and cultural practices *Contemporary Directions in Architecture* Mr. Rohit Manglik,2024-03-02 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels
