Depuis plus de vingt ans, au cœur de la capitale européenne, l'Office d'Art Contemporain promeut une pluralité d'individualités artistiques, toutes disciplines confondues, nourrissant une lecture inventive du monde. En 2009, pour l'exposition *l'union fait la forme*, son fondateur Jean-Marie Struobants invitait quarante artistes à s'approprier plastiquement les trois couleurs nationales d'un pays résumant en mal de soi. Artiste lui-même, il suit les difficultés à faire œuvre et à exister par la seule pertinence du geste artistique en sa pleine liberté. En 2014, l'Office donnait à voir une rétrospective de la mystérieuse collection Bernstein, construite au fil de choix partagés, et dont le présent livre offre une suite.

For more than twenty years, in the heart of Europe's capital city, the Office d'Art Contemporain has been promoting the diversity of artistic individualities, encompassing every discipline, and fostering a thoroughly global approach. In 2009, for the exhibition *l'union fait la forme*, the Office's founder, Jean-Marie Struobants, invited forty artists to present their creative visions under the three national colours of Belgium, a country that is experiencing so many inter-communal tensions. As an artist himself, he is acutely aware of the difficulties in engaging in and existing solely via the artistic creative act, in all its liberty. In 2014, the Office presented a retrospective of the mysterious Bernstein Collection – which was assembled as a result of shared choices – to which this book is the natural extension.

Savoirs professionnels et curriculum de formation Marie-Hélène Bouiller-Oudot, Yves

Lenoir, 2017-02-01T00:00:00-05:00 Dans le contexte actuel de révision des systèmes de formation tant initiale que continue la question des savoirs professionnels occupe une place de plus en plus importante dans les préoccupations des concepteurs de curriculums de formation professionnelle et des acteurs qui assurent leur opérationnalisation ainsi que dans les travaux des chercheurs qui se penchent sur les rapports qui se tissent entre ces savoirs et les curriculums de formation. Sous la plume de 18 auteurs belges français, belges et suisses de différents champs de formation professionnelle et partir de divers angles d'entrée sur le plan conceptuel au regard de l'insertion des savoirs professionnels dans les curriculums de formation les 13 chapitres de cet ouvrage témoignent clairement la fois de la complexité des rapports entre ces deux objets les savoirs professionnels et les curriculums de formation de leur multidimensionnalité et enjeux sociaux et éducatifs qu'ils soulèvent. Le développement de formations visées professionnelles et leur institutionnalisation au sein d'écoles ou d'universités ont contribué à instaurer de manière inéluctable un hiatus entre théorie et pratique sinon à faire ressortir l'existence souvent occultée par les formations disciplinaires traditionnelles. La perspective ici adoptée est d'analyser ce hiatus partir des processus de laboration des curriculums de formation et de la forme qui leur est donnée. Elle débouche sur la présentation d'une diversité de conceptions de situations et de propositions de formation qui est regroupée en deux parties. La première traite de la place des savoirs professionnels dans les curriculums de formation de professionnels alors que la seconde procède à l'analyse de curriculums dans différents types de formation de professionnels. L'ensemble des textes qui composent cet ouvrage met en relief la fois la convergence forte chez les auteurs de dimensions qui caractérisent la formation professionnelle et les curriculums qui en formalisent les orientations et le contenu et la divergence de conceptions qui s'articulent entre autres autour de logiques culturelles distinctes l'une nord-américaine et anglophone l'autre européenne et francophone.
