China's Changing Legal System Thomas W. Simon, Chuan Feng, Leyton P. Nelson, 2016-04-29 While much international attention has been focused on China's developing economy dramatic changes are also taking place in its legal system This

book is a groundbreaking comprehensive introduction to China's legal system covering the major areas of both civil and criminal law. The authors present fascinating cases and balanced accounts of controversial issues from copyright law to punishment. By letting Chinese lawyers and judges speak for themselves, the authors also allow readers a surprisingly candid insider's view of real life legal practice.

Chinese Legal Reforms Lu Xu, 2024-04-22 This book explains the details and underlying thinking of many major reforms to Chinese law and legal practice that have taken place since 2013. It draws widely on laws and regulations, policies, cases, official statistics, as well as the latest Chinese and foreign literature. The informed analysis answers intriguing questions such as why China runs the world's largest database of court judgments without recognising any precedent or why the number of judges was cut by 40% despite a more than doubled caseload. Ultimately, it offers a new approach on how to understand Chinese law and legal reforms in the contemporary world.

The Many Lives of Transnational Law Peer Zumbansen, 2020-04-02 Sixty years after Jessup's Transnational Law Lectures, this collection traces the field's development and significance to the present day.

The Development of the Chinese Legal System Guanghua Yu, 2010-11-17 In recent years, the Chinese legal system has undergone many reforms, and this book brings the literature up to date, offering a contemporary account of the law and administration in China. The book covers some of the most pressing issues in Chinese law, including the reform of the banking sector, environmental law, corporate law, foreign investment, health care, and intellectual property, and looks at both substantive and procedural issues. The volume contains contributions from a number of experts and scholars of Chinese law, including Albert Chen, Hualing Fu, and Roman Tomasic, who analyse the political, economic, and social factors affecting the development process of Chinese law. Whilst the book addresses a number of diverse legal areas, all the contributions look to explain the factors which led to the development of the law and the consequences of such developments, as well as the progress made by developing legal institutions and the possible obstacles to future development.

Chinese (Taiwan) Yearbook of International Law and Affairs, Volume 33 (2015) Ying-jeou Ma, 2017-09-18 The Chinese Taiwan Yearbook of International Law and Affairs includes articles and international law materials relating to the Republic of China on Taiwan and contemporary Asia-Pacific issues. It represents a bold departure from the most recent works on Chinese legal reform by engaging the ideas of experts in contemporary Chinese law with the archival scholarship of Chinese legal historians.
