Chinese Global Production Networks Understanding:

Chinese Global Production Networks in ASEAN Young-Chan Kim, 2015-12-11 This volume examines the role of Chinese businesses and industries in Asian production networks By presenting different case studies of the Asian region the contributors illustrate how China successfully exports the Chinese business model based on Chinese ethics social networks and production integration The contributors also discuss topics such as the implications and ramifications of global product sharing within Asia the prospects of free trade agreements in Asia the economic advantages of Chinese family lineage and Guanxi an influential Chinese network collaboration of overseas Chinese with mainland Chinese as well as direct Chinese business involvement and investment in other Asian countries

Global Production Networks and Rural Development Bill Pritchard, 2021-06-25 Bill Pritchard provides an important update on how current trade methodologies are implemented as China becomes one of the world's largest fresh fruit importers from countries such as Laos Myanmar Thailand and Vietnam

Labour Control and Union Agency in Global Production Networks Tatiana López, 2023-03-15 This book puts Indian garment workers and their organisations at the centre of the analysis Taking the Bangalore export garment cluster as a case study the book explores the conditions that enable but also constrain the capacities of garment workers unions to build collective power vis vis employers and thereby improve their conditions Drawing on theoretical concepts from labour geography relational economic geography and Global Production Network GPN analysis the book highlights on the one hand how the complex labour control regime in the Bangalore export garment cluster poses manifold challenges and constraints for workers and unions collective agency On the other hand the book illustrates the various networked agency strategies that local garment unions in Bangalore have developed over the years to overcome these constraints by tapping into coalitional power resources from worker consumer and labour rights organisations in the Global North This book is therefore highly relevant for economic geographers and other scholars interested in dynamics of labour and development in GPNs as well as for unionists and labour rights activists committed to improving working conditions in the global garment industry This is an open access book

Revisiting Globalization and the Rise of Global Production Networks S. Javed Maswood, 2017-07-24 This book takes issue with the likening of contemporary globalization to nineteenth century trade interdependence in which the defining feature of contemporary globalization is the spread of global production networks which were notably absent in the past Maswood demonstrates that the emergence of global production networks GPNs was not a result of economic and trade liberalization but instead due to neo protectionist developments in the 1980s that acted as a catalyst to transform Japan's nationally based production networks into the now ubiquitous GPNs Through this case study of Japan the author lays out a case for reconsidering the origins of globalization and explores some of the consequences that are likely to flow from progressive evolutionary transition towards a global economy

National Capitalisms, Global Production Networks Christel Lane, Jocelyn Probert, 2009-03-19 Firms in the clothing industry engage in global sourcing and operate in global

markets Their global production networks have often been subject to scrutiny as the power relationships between buyer firms in developed countries and supplier firms in developing countries raise issues concerned with fast fashion the role of brands labour standards in developing countries job losses among the most vulnerable workers in Europe and the US and the growing differentiation within the bloc of developing countries between the least developed and fast developers such as China and India This book analyses the way British American and German firms in the clothing industry manufacturing and retail co ordinate and govern their global production networks value chains It offers a multi level study concerned with processes of economic interaction between international regional and national economic institutions and actors This combines an analysis of international regional regulatory systems global markets and conditions in the developing countries where suppliers are found with a focus on the recent development of the clothing industry in three western countries The analysis of firms global networks focuses on the power relationships between western producers and retailers on the one hand and between buyer firms in developed and supplier firms in developing countries on the other as well as their impact on labour Utilising over one hundred interviews in six countries on three continents it follows the value chain from developed to developing countries and studies the many issues which confront students of globalization at the current time The study combines theoretical perspectives from economic sociology political economy and management and seeks to utilise the complementary strengths of the Varieties of Capitalism approach and that of Global Production Networks Value Chains It will appeal to advanced students and academics interested in processes of economic globalization and the way firms manage them as well as to those looking for a study of the clothing industry which combines theoretical depth with broad empirical coverage

Global Value Chains and Production Networks Fengru Cui,Guitang Liu,2018-12-05 Global Value Chains and Production Networks Case Studies of Siemens and Huawei presents theories and frameworks that facilitate the evolution of GPN studies from macro perspectives based on territory and industry to the use of micro firm level data The book explores these theories and frameworks through detailed case studies of two major corporations Siemens and Huawei With the GPN GVC structure of Chinese firms not well known outside China despite the growing importance of Chinese firms in the global economy this guide plays a pivotal role in facilitating the use of data that promise to unlock economic cooperation and value Emphasizes micro data analytical models and their methodological underpinnings Illustrates how these data illuminate the economic structures of two comparable GPNs within highly divergent institutional contexts Suggests how companies can cooperate with foreign partners to enhance their global management capacity and reshape their advantages in international competition

Asia and Global Production Networks Benno Ferrarini,David Hummels,2014-10-31 This timely book deploys new tools and measures to understand how global production networks change the nature of global economic interdependence and how that in turn changes our understanding of which policies are appropriate in this new environment

Global Production Networks Ander Errasti,2016-04-19 The phenomenon of globalization has increased in recent decades

due to the opening of borders in Eastern Europe and the sudden emergence of other countries in the global trade economy Yet the process of becoming global to get access to growing markets or to achieve quality service and or cost advantages from the reconfigured Value Chains is one

Global Value Chains and Global Production Networks Jeffrey Neilson, Bill Pritchard, Henry Yeung Wai-Chung, 2017-10-02 The global economic system is experiencing a profound period of rapid change The emergence of globalised production and distribution systems which bring together diverse constellations of economic actors through a complex regime of global corporate governance state regulation and new international divisions of labour demands corresponding and innovative explanatory models Global value chains GVCs and global production networks GPNs have been particularly useful as conceptual frameworks for understanding the global market engagement of firms regions and nations This book examines the rise of GVCs and GPNs as dominant features of the international political economy It brings together leading thinkers in the field and sets out new directions for future scholarship in understanding the contemporary global economic system In doing so this book makes a significant contribution to our understanding of the international political economy and the global economic system in the post Washington Consensus era of contemporary capitalism This book was published as a special issue of the Review of International Political Economy

How China is Reshaping the Global Economy Rhys Jenkins, 2018-11-08 China's growing economic involvement in Sub Saharan Africa and Latin America has been a source of major controversy The official Chinese position maintains that the growth of bilateral relations is of mutual benefit and provides a good example of South South cooperation Critics on the other hand see the economic relations between China and other developing countries as highly unequal with most of the benefits accruing to China and a few local elites They also point to negative socio economic political and environmental consequences How China is Reshaping the Global Economy Development Impacts in Africa and Latin America throws more light on these controversies through a comparative study of China's impact on the two regions It looks not just at bilateral relations between China and the two regions but also analyses the changes in the global economy brought about as a result of the shift in economic activity from North America and Western Europe to Asia How China is Reshaping the Global Economy looks at the factors which led to rapid economic growth in China and the way in which this has affected global manufacturing commodity markets the international presence of Chinese companies and financial flows It examines the different forms of Chinese economic involvement in Sub Saharan Africa and Latin America the main drivers and economic social political and environmental consequences It ends with a comparison of the two regions that highlights the importance of different histories and political and institutional contexts in determining the impacts of China
