OBJECT ORIENTED PROGRAMMING WITH C++ P. B. Kotur, 2012-05-25 Application development activity is becoming more and more complex and tedious day by day as the customers requirements are ever changing To address their needs the IT industry is focusing on newer ways of doing things and providing both cost and time advantage to the customers Therefore all of you who wish to be in the IT Industry and service the IT customers need to think innovatively and be ready to accept the change If you have done C now it is time to move on to C++ C++ is a super set of C language It provides the C programmers the flavor of Object Orientation With its object oriented programming features like encapsulation inheritance and polymorphism C++ offers a number of benefits over the C language The book titled Object Oriented Programming with C++ is exclusively designed as per the syllabus of III semester B.E. Computer Science each chapter begins with a well defined set of objectives discusses the various concepts with the sufficient number of Example Programs summarizes and ends with exercises and multiple choice questions The book provides more than 130 C++ programs which are executed on Windows with Turbo C++ compiler and Microsoft Visual C++ 2008 Express Edition All C style programs are run on Turbo C++ IDE and the new style C++ programs are executed on Microsoft Visual C++ 2008 Express Edition All programs of chapter 14 are developed and executed on Microsoft Visual C++ 2008 Express Edition It is important that you will use the right compiler and understand the working of each program I am more than happy to receive your suggestions and comments for further improvement of the book
