Digital Graphics High School Curriculum:

A Handbook for High Reliability Schools Robert J. Marzano, Phil Warrick, 2011-07-01 Usher in the new era of school reform The authors help you transform your schools into organizations that take proactive steps to prevent failure and ensure student success Using a research based five level hierarchy along with leading and lagging indicators you ll learn to assess monitor and confirm the effectiveness of your schools Each chapter includes what actions should be taken at each level

School-Based Curriculum in China Yunhuo Cui, Hao Lei, Wenye Zhou, 2020-12-07 This book first develops a framework to understand the curriculum administration system in China It describes the historical process of localizing school based curricula as well as the significance and positioning of school based curricula and presents in detail cases of how three types of school based curriculum were developed and implemented in Chinese schools The book outlines for the first time best practices in school based curriculum development in China i e how to make a holistic curriculum plan how to design a curriculum and how to develop a course in the context of a school based curriculum By discussing these three aspects it clearly summarizes the strategies and technologies for school based curriculum development which are applicable across contexts Although the concept originated outside China school based curriculum development in China differs from that in other countries both in theory and practice This book equips readers with theoretical and practical knowledge of how to develop school based curricula and how to generate experiences for new curriculum development This timely book is a valuable resource for researchers curriculum designers school teachers and others who are interested in school based curriculum development

The Collection Program in Schools Marcia A. Mardis, 2016-02-25 This thorough treatment of collection development will serve school library educators and students as well as practicing school librarians providing quick access to information that is both immediately useful and helpful as unforeseen situations arise Our digitally rich world changes quickly and contains more information resources than ever before as a result school librarians are tasked with the enormous challenge of curating a diverse high quality and up to date collection for teachers students and administrators to use This new edition of The Collection Program in Schools gives school librarians the tools to develop and maintain a collection in a constantly changing environment often with reduced budgets and to ensure that students can use virtual libraries and have access to all modern media and learning resources The book logically progresses in its coverage of national and state policy concerns to community needs to the process of collection building and maintenance Topics covered include key education trends affecting collections such as digital textbooks and other non print resources instructional improvement systems STEM priorities and open education resources the use of school libraries as makerspaces media type considerations for a range of users Common Core State Standards and Next Generation Science Standards and the principles of curation acquisition description organization promotion evaluation and maintenance This guide is ideal for use in many graduate level school librarian preparation courses including classes on school library collection development and school
