

The image shows a low-angle, upward-looking view of a modern building's exterior. The building features a large, blue-tinted glass facade that reflects the sky and surrounding structures. A prominent white "Citibank" logo is mounted on the glass. The logo consists of a large, stylized "C" followed by "itibank" in a lowercase, sans-serif font. A red, curved swoosh is positioned above the "i" in "Citibank". Below the glass section, there is a horizontal band of white, slatted metal grating. The overall composition is dynamic, with strong diagonal lines created by the building's architecture.

Citibank El Salvador:

El Salvador International Monetary Fund. Monetary and Capital Markets Department,2014-02-11 This paper discusses key findings of the detailed assessment of compliance of the Basel Core Principles for Effective Banking Supervision for El Salvador The Salvadoran financial system is comparable with its regional peers in terms of size The financial system has weathered the global financial crisis reasonably well Reflecting a flight out of riskier assets and a number of recapitalization rounds capital adequacy levels slightly increased and currently averages nearly 17 percent Nonperforming loans amount to 3.8 percent of total loans up from about 2 percent before the crisis The Salvadoran authorities are also in the process of overhauling the supervisory landscape Central America International Monetary Fund,2006-05-09 Intraregional financial activity in Central America has grown substantially in the past decade contributing to efficiency and economic development At the same time the expansion of activities by regional conglomerates has increased the challenges to supervisory authorities of containing the risks of contagion Prepared as part of the Central America Financial Sector Regional Project by an IMF and World Bank staff team this book outlines trends in the region's financial sector integration supervisory responses development of the insurance sector payment and securities settlement arrangements and worker remittances It addresses the many common policy challenges facing Central American countries Costa Rica El Salvador Guatemala Honduras Nicaragua and Panama in financial sector reform The book offers key policy recommendations *Investment Insurance and Developmental Impact* Gerald T. West,Ethel I. Tarazona,2001-01-01 The purpose of MIGA is to encourage the flow of investments for productive purposes As well as providing guarantees or insurance covering qualified foreign direct investment it also provides technical assistance to governments on ways to attract and retain foreign investment and disseminates information on investment opportunities This publication shows the impact of its work based on an assessment of 52 projects **El Salvador** International Monetary Fund. Statistics Dept.,2018-02-12 This Technical Assistance Report discusses the findings and recommendations made by the IMF mission regarding the balance of payments international investment position and secondary income statistics in El Salvador The mission reviewed progress made on the recommendations for the Coordinated Direct Investment Survey CDIS Although El Salvador is currently reporting data to the CDIS there are some topics that need improvement particularly the positions of the shareholders of the three most important financial groups and their subsidiaries to avoid duplicate entries The mission agreed with the authorities regarding the monitoring of processing payment vouchers sent to the Central Reserve Bank of El Salvador by banks and other entities paying remittances for amounts exceeding the threshold of US 500 to complete the personal transfers estimates

Competition Policies in Emerging Economies Claudia Schatan,Eugenio Rivera Urrutia,2008-07-11 As countries large and small rich and poor are drawn inexorably into the global economy protectionist policies are proving increasingly inefficient and ineffective for driving growth The countries of Latin America which have long pursued agendas of state

ownership and heavy regulation of key industries began to institute a series of reforms in the 1980s and 1990s designed to promote competition and business creation. However, without the legal and institutional framework to support these policies and thus guarantee resource efficient behavior on the part of business owners, the record has been spotty at best. Competition Policies in Emerging Economies features in depth analysis of two key industries: telecommunications and banking in several Central American nations to shed light on the dynamics of the transition to deregulation and trade liberalization and learn from the experiences of these economies. This book has a three fold purpose: 1 to examine the competition conditions and policies of small developing countries of Central America and hence cover an area where very little information exists; 2 develop an in depth analysis of regulation and competition policies in two key industrial sectors with poor competition records: telecommunications and banking; 3 link the former results analysis with other international experiences in order to derive research and policy recommendations that can be applied to other small developing and emerging economies. Featuring discussion of political, legal, economic, financial, cultural, and organization level issues, the book provides unique perspectives on the forces resisting competitive practices and offers suggestions for overcoming them.
