Networks of Survival bilal islamoglu, 2025-08-25 History remembers empires for their monuments and rulers but their real strength lay in the network of survival that connected centers to edges This network rested on four pillars roads that carried grain and armies rails that bound nations in the age of steam cars that bridged rural families to work and education and stories that preserved meaning long after stone and steel had crumbled Across centuries from the Via Appia to Ottoman shipping routes from fortified harbors to village backroads these connections made survival possible for empires for cities for families Though their forms change stone iron asphalt or word their purpose endures to carry life across distance and to keep it connected
