Coming Home To Pleistocene 98 By Shepard Paul Paperback 2004:

A World Not Made for Us Keith R. Peterson, 2020-09-01 In *A World Not Made for Us* Keith R Peterson provides a broad reassessment of the field of environmental philosophy taking a fresh and critical look at three classical problems of environmentalism the intrinsic value of nature the need for an ecological worldview and a new conception of the place of humankind in nature He makes the case that a genuinely critical environmental philosophy must adopt an ecological materialist conception of the human a pluralistic value theory that emphasizes the need for value prioritization and a stratified categorial ontology that affirms the basic principle of human asymmetrical dependence on more than human nature Integrating environmental ethics with the latest work in political ecology Peterson argues it is important to understand that the world is not made for us and that coming to terms with this fact is a condition for survival in future human and more than human communities of liberation and solidarity
