Making Disciples Sylvia Wilkey Collinson, 2007-01-01 The Christian faith community regards the making of disciples as a prime directive of Jesus himself though this theme is not dominant in contemporary models of teaching in the church This investigation seeks to develop a theory of discipling and to test its congruence as an effective educational strategy with the objectives of modern Christian faith communities After briefly examining the discipling model of teaching as practiced in the world of the Ancient Near East a detailed study of New Testament texts investigates the practice of discipling by Jesus and his followers and in the church of the first century An understanding of the concept of discipling is gained by gradually

refining its definition as the study progresses through a contemporary examination of other informal models of education Religious and educational research findings are explored to enable the validity of the discipling model to be determined Finally the definition is used as a benchmark to examine various contemporary educational theories within the community of faith In contrast to the schooling model discipling has been shown to be an effective model for teaching attitudes values and behavior as well as knowledge and beliefs in today s church Its emphasis on commitment to learning relationships within a nurturing community and active involvement in the mission of Christ to the world and its capacity to adapt to differences in age culture ability and interests make it a model of teaching worthy of much greater attention by the Christian faith community

Hans Frei & Karl Barth David E. Demson,2012-08-01 Karl Barth and Hans Frei are close to the center of contemporary hermeneutical debate David Demson s illuminating study offers an authoritative account of their respective ways of reading Scripture arguing that for all its fruitfulness Frei s work lacks a theology of inspiration such as Barth provides Scrupulous and nuanced in its handling of the texts this book is a perceptive contribution to the literature of both Frei and Barth It is also a place to begin exploring key theological issues concerning biblical interpretation theory of interpretation and Christology John Webster Oxford University The whole of Christian discourse is contained in the tiny glittering questions that Demson so marvelously brings to light His work is the work of a hermeneutical master in the service of other hermeneutical masters Hans Frei and Karl Barth The result is a brilliant restatement of Frei on the identity of Jesus Christ amplified and qualified by astute attention to Barth An outstanding contribution to the ecclesial reading of Holy Scripture George Hunsinger Center of Theological Inquiry Taking a narrow focus a single difference in the interpretation of Scripture by two twentieth century theologians Demson has succeeded in opening up a wide theme Here is a fascinating account of how the reading of the Bible remains a living challenge for contemporary Christians Kenneth Hamilton University of Winnipeg A careful description and able comparison of two significant theologians expositions of the Gospel accounts of Jesus ministry passion and resurrection Demson who is impartial but not neutral in his stance provides helpful synthetic insight into how Barth and Frei each treat a broad theological theme and at the same time gives readers constructive proposals for explicating New Testament texts This book is a welcome contribution to all for whom attending to the Bible and doing theology are inseparable H Martin Ruscheidt Atlantic School of Theology

Paul and the Anatomy of Apostolic Authority John Howard Schutz,2007-04-19 John Howard Schutz s milestone analysis of Paul s authority shaped a generation of thought about Paul This insightful work continues to be relevant to Pauline scholarship The New Testament Library offers authoritative commentary on every book and major aspect of the New Testament as well as classic volumes of scholarship The commentaries in this series provide fresh translations based on the best available ancient manuscripts offer critical portrayals of the historical world in which the books were created pay careful attention to their literary design and present a theologically perceptive exposition of the text

...The Acts of the Apostles in the Revised Version Alfred Walter Frank Blunt (Bishop of Bradford),1922

The Theology of the Apostles
Adolf Schlatter,1998 Until this day Adolf Schlatter s incisive theological work has remained something of a well kept secret

among English speaking theologians and biblical scholars The Anglo American scholarly guild has been slow to award Schlatter the respect due him During his lifetime none of Schlatter s books were translated into English His true stature however can be appreciated by the fact that the first volume of Gerhard Kittel s massive Theological Dictionary of the New Testament is dedicated to Kittel s teacher Adolf Schlatter While Schlatter may best be known for his commentaries on Matthew John or Romans his theological approach is given its most pronounced expression in the two volume Die Theologie des Neuen Testaments written during his Tbingen years Schlatter claimed the primacy of historical research in New Testament theology rejecting the intrusion of subjective idealistic notions into the discipline His insistence on the distinction between the two horizons of the biblical text the ancient and the contemporary and his affirmation of the preeminence of the first horizon are as timely today as they were then At the same time Schlatter did not rest content with historical exegesis He urged the pursuit of the doctrinal task as not only truth for the New Testament community but also for us personally
