Modernism in Trieste Salvatore Pappalardo, 2021-01-14 When we think about the process of European unification our conversations inevitably ponder questions of economic cooperation and international politics Salvatore Pappalardo offers a new and engaging perspective arguing that the idea of European unity is also the product of a modern literary imagination This book examines the idea of Europe in the modernist literature of primarily Robert Musil Italo Svevo and James Joyce but also of Theodor D ubler and Srecko Kosovel all authors who had a deep connection with the port city of Trieste Writing after World War I when the contested city joined Italy these authors resisted the easy nostalgia of the postwar period radically reimagining the origins of Europe in the Mediterranean culture of the Phoenicians contrasting a 19th century nationalist discourse that saw Europe as the heir of a Greek and Roman legacy These writers saw the Adriatic city a cosmopolitan bazaar under the Habsburg Empire as a social laboratory of European integration Modernism in Trieste seeks to fill a critical gap in the extant scholarship securing the literary history of Trieste within the context of current research on Habsburg and Austrian literature

Fontaine and Cultural Mediation Robertson Ritchie, 2017-07-05 In the mid 1880s the Realist author and Anglophile Theodor Fontane observed nowhere is so much translation done as in Germany Characterizing Germany as a special locus of literary translation and reception Fontane contests a prejudice which has since become a significant problem for nineteenth century German studies namely the frequent assessment of the epoch as narrowly national The present collection of essays by thirteen eminent literary scholars and historians is intended to correct this prejudice it demonstrates

that literary life and production in the nineteenth century were governed by complex networks of intercultural exchange influence and translation and it does justice to this complexity through its range of complementary critical approaches focussing on Fontane Anglo German relations translation and European reception In so doing this book not only offers a nuanced appreciation of literary production and reception in the nineteenth century but also demonstrates the continued relevance of that period for Germanists today

Translation and the Global City Judith Weisz Woodsworth, 2021-09-26 Translation and the Global City showcases fresh perspectives on translation in a global context drawing on case studies from Montreal and other multilingual cosmopolitan cities to examine the historical sociological and cultural factors underpinning the travel of languages ideas and cultures across borders Building on the spatial turn in translation studies the book adopts a bridge metaphor to explore the complexities of translational spaces and the ways in which translation acts can both unite and divide in the global city The collection initiates the discussion with a focus on the Canadian context and specifically the city of Montreal where historical circumstances public policy and shifting language politics have led to a burgeoning translation industry It goes on to address issues of translation in other regions and cities of the world generating new insights and opening avenues for further research into the relations between languages and cultures This volume will be of particular interest to students and scholars in translation studies especially those with an interest in translation theory and the sociology of translation
