Irish and Galician women poets negotiate competing ideologies such as nationalism feminism Celticism and Catholicism This book was published as a special issue of the European Journal of English Studies Bridging the Humor Barrier John Rucynski Jr.,Caleb Prichard,2020-02-18 The language barrier is a familiar term but what exactly is the humor barrier Humor is a universal phenomenon but the cultural variance in how humor is used can prove to be a major obstacle for English language learners hoping to communicate effectively in cross cultural contexts While a growing number of researchers have explored the importance of helping language learners better understand the humor of the target culture in Bridging the Humor Barrier Humor Competency Training in English Language Teaching editors John Rucynski Jr and Caleb Prichard bring together language teachers and researchers from a range of cultural and teaching contexts to tackle how to actually overcome the humor barrier This book empirically examines humor competency training and presents related research bearing implications for humor training Contributors address a wide range of genres of humor providing fresh insights into helping language learners deepen their understanding and appreciation of the humor of the English speaking world including jokes sarcasm and satire This book is an excellent resource for English language teachers looking to help their learners avoid the pitfalls and reap the benefits of humor in the target language **Challenges of Anglophone Language(s),**

Literatures and Cultures Alena Kačmárová,2017-01-06 This book explores scholarly challenges within the fields of Anglophone language literature and culture The section focusing on language details issues falling within two areas namely language contact and the language culture relationship and stylistic and syntactic perspectives on the English language The literature part investigates twentieth century American English and Australian literature dealing with both poetry and prose and discussing topics of identity gender metafiction postmodern conditions and other relevant theoretical issues in contemporary literature The culture part treats theoretical approaches in cultural studies that are vital in today s cultural context especially in Central European universities the Irish language and culture and contemporary cultural phenomena inspired by the growing ubiquity of technological intrusions into various fields of cultural production Carnivalizing Reconciliation Hanna Teichler,2021-10-15 Transitional justice and national inquiries may be the most established means for coming to terms with traumatic legacies but it is in the more subtle social and cultural processes of memory work that the pitfalls and promises of reconciliation are laid bare This book analyzes within the realms of literature and film recent Australian and Canadian attempts to reconcile with Indigenous populations in the wake of forced child removal As Hanna Teichler demonstrates their systematic emphasis on the subjectivity of the victim is problematic reproducing simplistic narratives and identities defined by victimization Such fictions of reconciliation venture beyond simplistic narratives and identities defined by victimization offering new opportunities for confronting painful histories Getting Through Roger Kreuz,Richard Roberts,2018-08-28 Understanding how culture affects the ways we communicate how we tell jokes greet ask questions hedge apologize compliment and so much more We can learn to speak other languages but do we truly understand

what we are saying How much detail should we offer when someone asks how we are How close should we stand to our conversational partners Is an invitation genuine or just pro forma So much of communication depends on culture and context In *Getting Through* Roger Kreuz and Richard Roberts offer a guide to understanding and being understood in different cultures Drawing on research from psychology linguistics sociology and other fields as well as personal experience anecdotes and popular culture Kreuz and Roberts describe cross cultural communication in terms of pragmatics exploring how language is used and not just what words mean Sometimes this is easy to figure out If someone hisses I m fine though clenched teeth we can assume that she s not really fine But sometimes the context cultural or otherwise is more nuanced For example a visitor from another country might be taken aback when an American offers a complaint Cold out today as a greeting And should you apologize the same way in Tokyo as you would in Toledo Kreuz and Roberts help us navigate such subtleties It s a fascinating way to think about human interaction but it s not purely academic The more we understand one another the better we can communicate and the better we can communicate the more we can avoid conflict
