Inventive Systems and Control V. Suma,Joy Iong-Zong Chen,Zubair Baig,Haoxiang Wang,2021-06-07 This book presents selected papers from the 5th International Conference on Inventive Systems and

Control ICISC 2021 held on 7-8 January 2021 at JCT College of Engineering and Technology Coimbatore India. The book includes an analysis of the class of intelligent systems and control techniques that utilise various artificial intelligence technologies where there are no mathematical models and systems available to make them remain controlled. Inspired by various existing intelligent techniques, the primary goal is to present the emerging innovative models to tackle the challenges faced by the existing computing and communication technologies. The proceedings of ICISC 2021 aim at presenting the state of the art research developments, trends and solutions for the challenges faced by the intelligent systems and control community with the real world applications. The included research articles feature the novel and unpublished research works on intelligent system representation and control.
